UAPA on IAMC

Tripura Police has put UAPA on 102 entities regarding recent violence, including on Indian American Muslim Council (IAMC)

IAMC was quick to play victim.

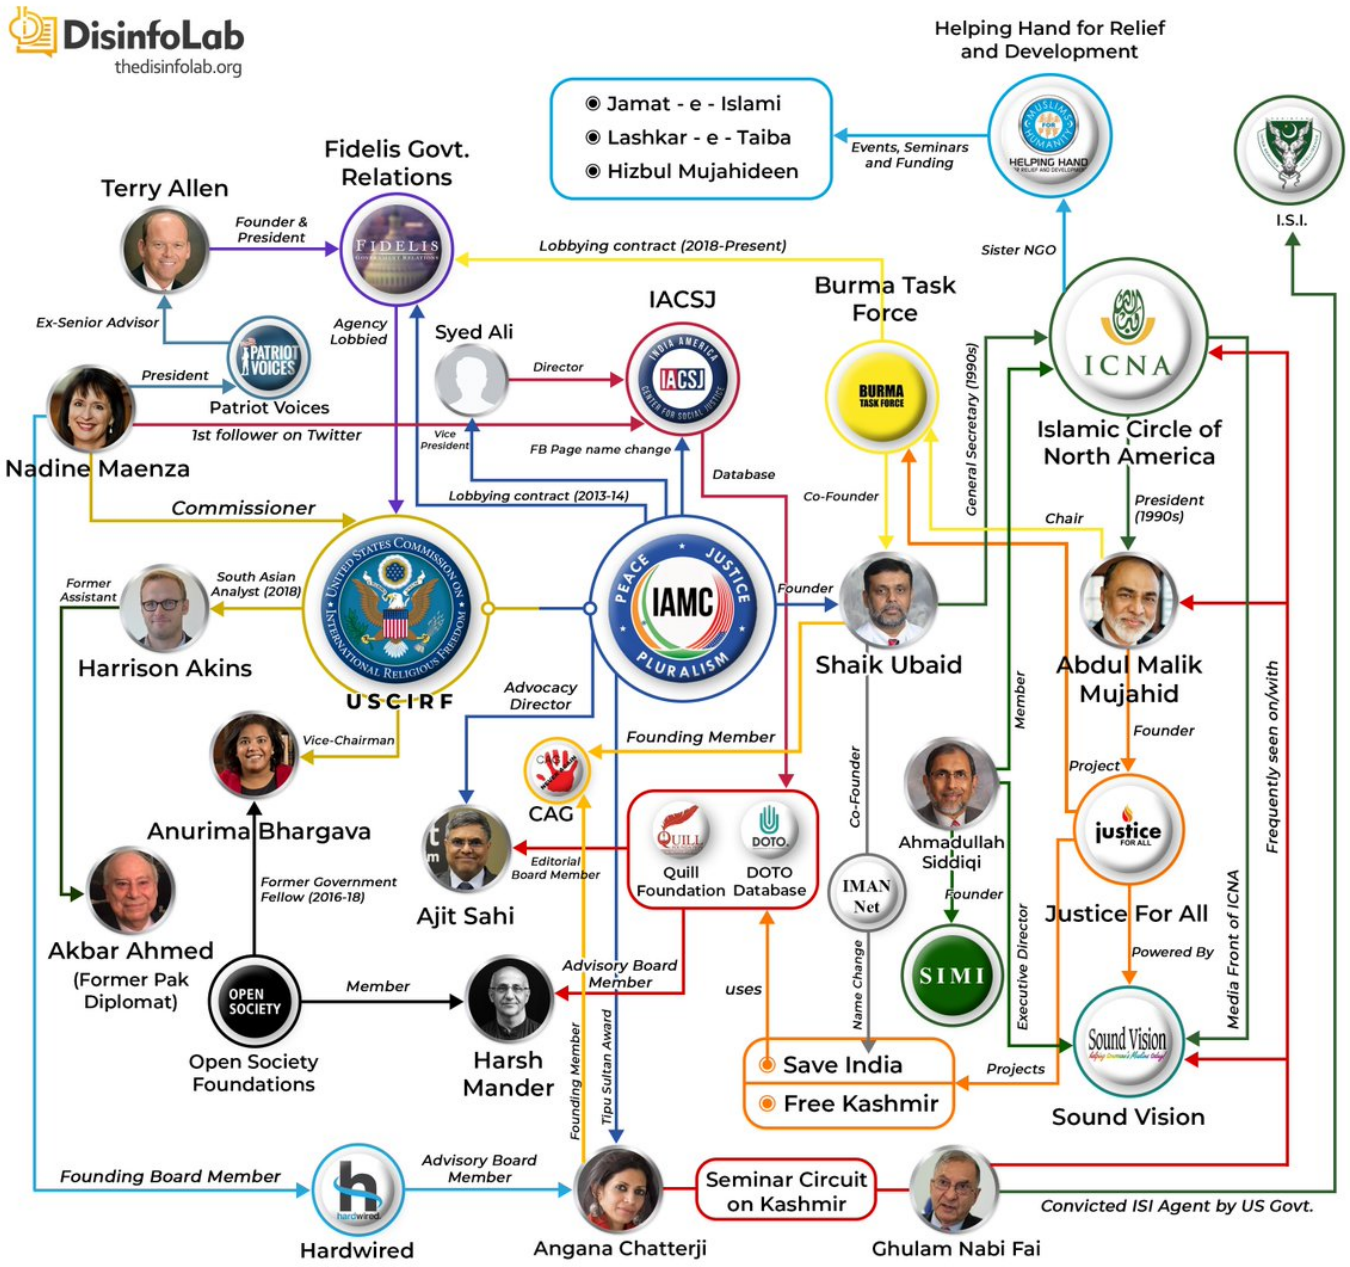

What IAMC didn't tell is its relations with Pan-Islamist networks- Jamaat, & terror-linked groups.

A thread

IAMC is a US-based Jamaat affiliated group which is hub for all anti-India activities - from lobbying against India to committing COVID-19 donation fraud to spreading fake news.

(2/n)

IAMC was founded in 2002 by Dr. Shaik Ubaid (SU), former General Secretary of ICNA- the American arm of Jamaat-e-Islami (JeI). Though SU conveniently denied his association with ICNA & later IAMC he continued to work with them to target India via Burma Task Force (BTF).

Some of the members of IAMC like Kaleem Kawaja have been a vocal supporter of Taliban.

Brother, can you spare a tear for Taliban

By Kaleem Kawaja

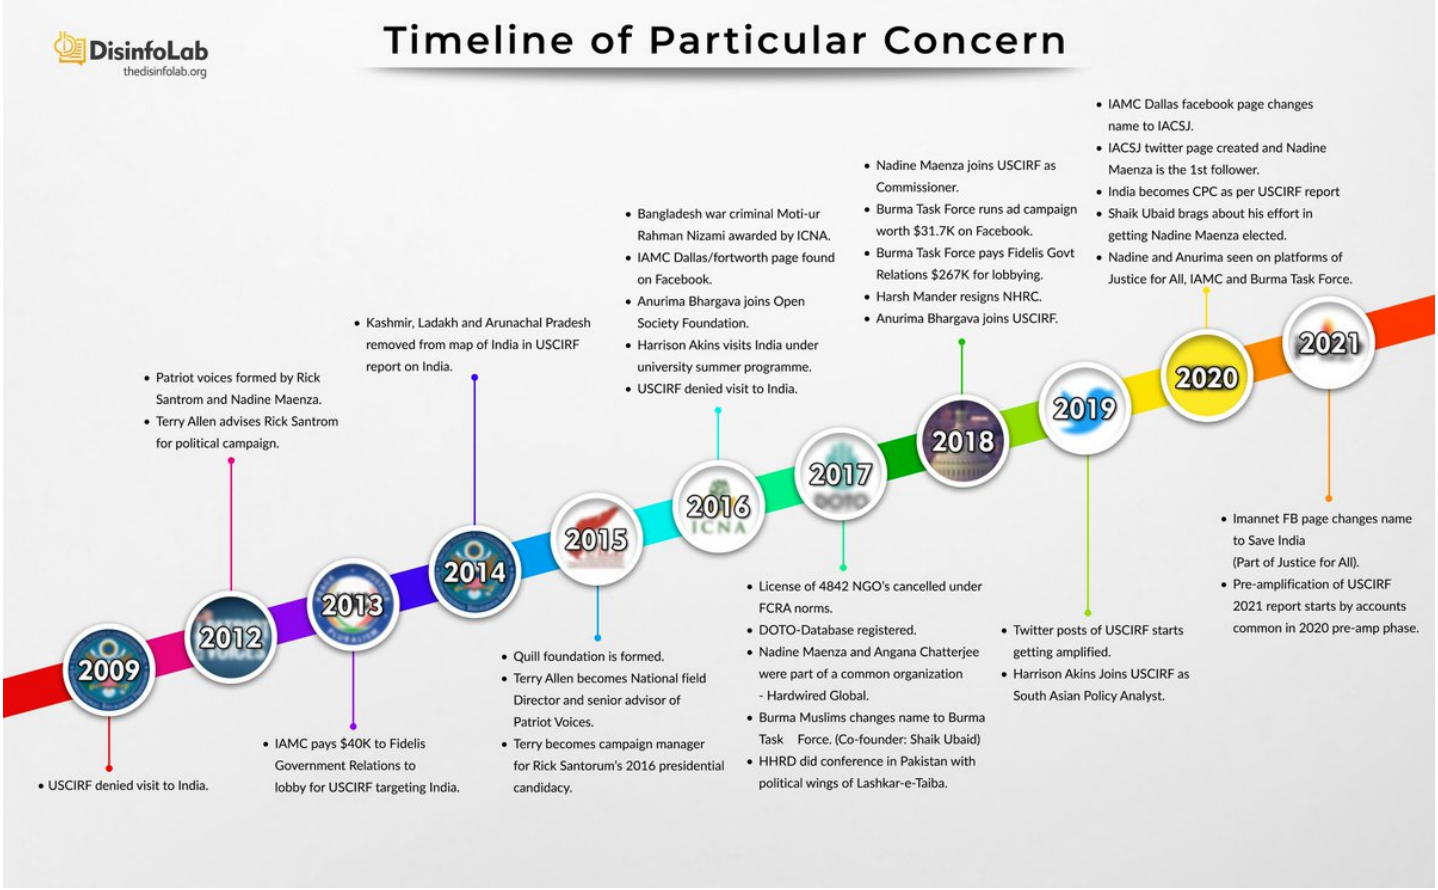

Today, an overwhelming majority of Muslims all over the globe feel deep sadness at the tragedy, that befell the attempts of the Muslims of Afghanistan

Washington DC: With the defeat and disbanding of the Taliban government in Afghanistan in its recent face-off with the mighty US army, another bold attempt of Muslims to assert themselves and the Islamic values in their own country has come to an ignominious end. Unfortunately, unlike the Islamic revolution in Iran in 1979-80, the Taliban had neither thought through their plan, nor they had developed a realistic strategy of how to implement their plan, even though the terrible chaos and circumstances in Afghanistan had provided them a golden opportunity. Indeed, during their short stay in power, with very few resources and very little help, Taliban carried out major societal reforms in Afghanistan. Reforms that the mighty British and Russian empires failed in bringing about, were successfully carried out by the rag-tag semi-literate Taliban.

IAMC has been working against Indian interests since its inception. While it claims that it's against present govts' policies, IAMC has been lobbying against India to USCIRF to get India listed as a Country of Particular Concern (CPC) even during Congress govt in 2013-14!

(6/n)

IAMC hired US lobbying firm Fidelis Government Relations (FGR) in 2013-14 for $40K to lobby USCIRF against India. The influence of which can be seen to date

Best part: to lobby against India, it collected funds in name of helping Rohingyas & Kosovo

> USCIRF - 2021 has declared India as \u2018Country of Particular concern. This, if accepted by the US Govt, can result in economic sanctions on India.

> Our investigation finds that US based Islamist fronts infiltrated the US body.

For effective lobbying, IAMC manufactures evidence via fake news to incite communal violence & reinforces the narrative of minority plight in India- from fabricated stories on CAA to Tripura violence
They even created a fake database DOTO to show ‘atrocities’ on minorities

(8/n)

IAMC went quiet after it was exposed early this year, but there has been a sudden resurgence. Why?

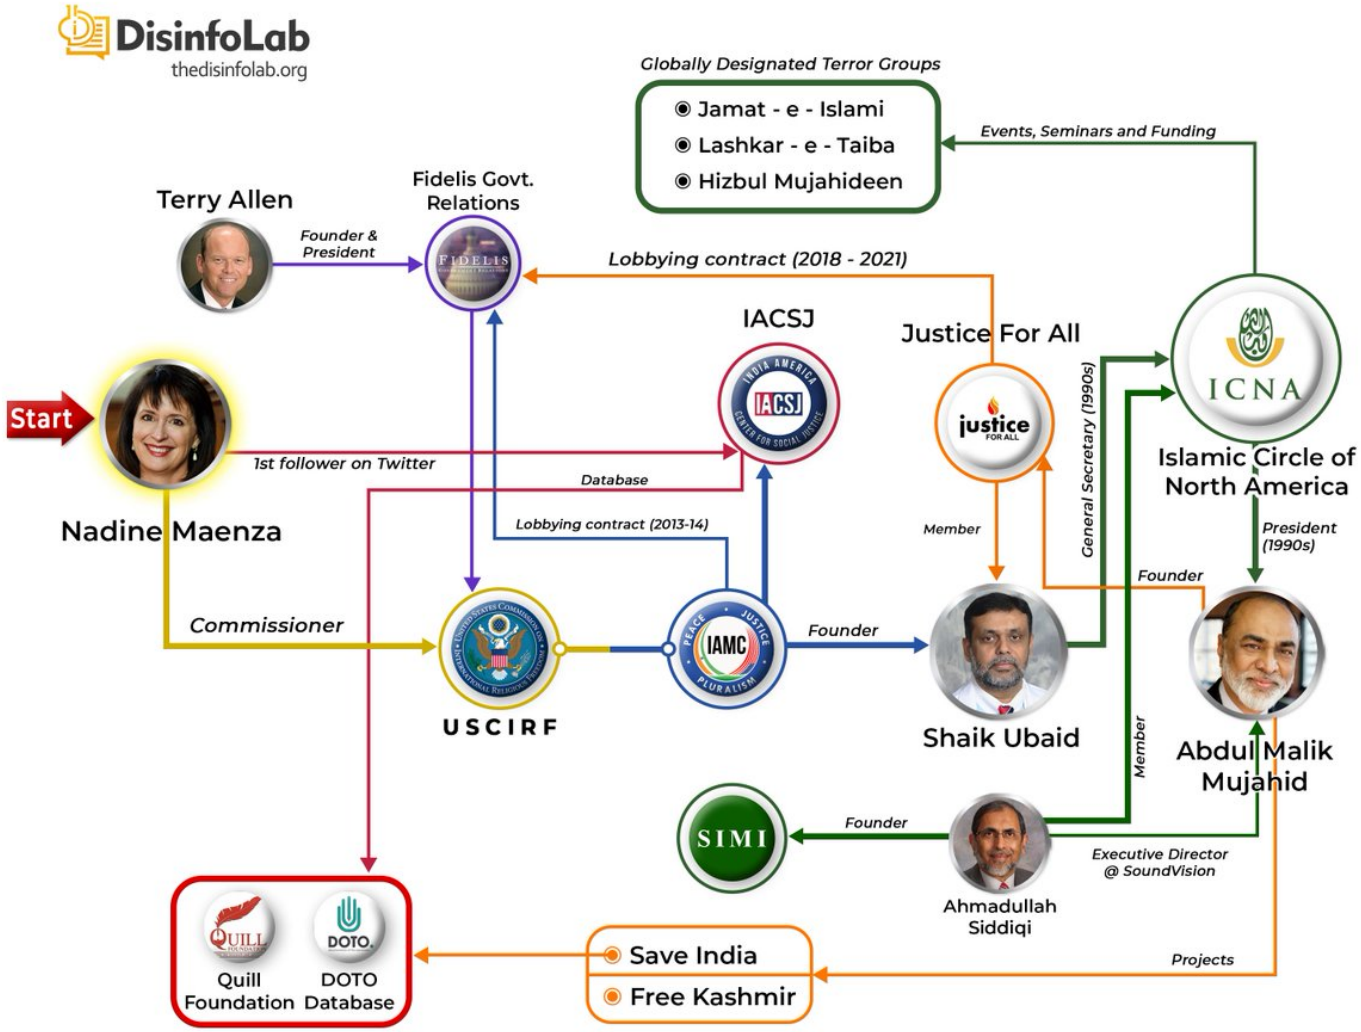

Having lobbied USCIRF to designate India as CPC, it wants to create noise to influence the US Congress where USCIRF report will be discussed.

(9/n)

Important to note that this year Shaik Ubaid via BTF had already paid money to lobby firm Fidelis Government Relations to lobby the US Congress.

A series of incidences in India – from Assam to fake trolling of Shami to Tripura violence may not be coincidences.

(10/n)

It is showing how such organizations manage to push their agendas despite getting exposed repeatedly, & even manage to engage some influencers in India.

We will continue to expose their nexus, & soon will be coming with an updated report.
