### On so called #BegumpuriMosque & #BijayMandal

**According to fake historians Bijay Mandal was constructed by Allauddin Khilji & Later maintained by Muhammad Bin Tughluq.**

**But don't you think that its name Bijay Mandal sounds like it has connection to Hindus?**

Pic one : Mahendravadi Rock cut temple.

Pic two : Bijay Mandal Mosque.

Look at the similarities between these two pictures.

I don't think I need to clarify here, the truth is clearly visible from both these pictures.

Now look at this small Shiva Lingam which is located in the courtyard of Begumpuri mosque, where a tomb was built next to it, just to hide this lingam and hurt the faith of Hindus.

One can found these architectural designs in Hindu temples & bhavans easily.

They dont have any historical evidence that the mosque was built by whom?
