Shri Khajrana Ganesh Mandir,
Indore #MadhyaPradesh

It is said that the ancient murti in the Mandir was seen in a dream of a local priest.
Later, she excavated the said murti from under the ground & installed it in mandir.
From where the murti was removed, there is a well.

It is believed that in order to safe guard the murti from Aurangzeb, the murti was hidden in a well and in 1735, it was taken out from the well and a temple was established in 1735 by Rani Ahilyabai Holkar ji belonging to the Holkar dynasty.
