I have hardly seen anyone who talks about other unknown hidden things about Dr Ambedkar which is already there in public domain but no one talks about them. Therefore, I thing it is very necessary to share few truths about his true legacy. Then Judge him accordingly.

Thread 1/n

He was a devoted student of the Bible, who possessed a huge collection of Biblical Literature, as a result of which he compare himself with Moses as both of them has similar characteristic.

If Hindu Raj does become a fact, it will, no doubt, be d greatest calamity for this country. No matter what the Hindus say... On that account it is incompatible with democracy.Hindu Raj must be prevented at any cost.

He admitted his Sanskrit deficiency, he can not claim mastery over Sanskrit language.....He read the English translation for 15 yrs.... He was warned for the same for the same.

Amazingly, Dr. Ambedkar registered for economics and not for Indology.

And He upgraded his father's profession from low rank to General. ■

In his book who were shudras (page i), he translated Shudras as menials. Seriously ?

How on this planet it is even possible to have such translation?

Was it a deliberate thing or due to his Sanskrit deficiency?

He also translated Brahmins merely as a priest. How?

10/n

In order to justify his view, he cited since Shudra are equated to feet of Virat Purush (Creator), that is why they are assigned as lower social order and were given filthiest function...to serve as menial.

How on this planet it is even possible to have such analogy? 11/n

Even Virat Purush's body is considered as of low and high value? Is it not true that people worship feet? and abuses from mouth ? Then going by such analogy who should be high rank or low rank?

All this high rank and low rank is Biblical Racial concept.

12/n

I have written in details, how biblical racial concept was applied to identify Indians as low rank or high rank on the basis of CASTE which is nothing but Nose size. More is the nose size higher is the rank, less is the nose size lower is the rank.

> The most important thing to note in Census 1881 is that it has a special table of record for the education of Brahmins, population of Brahmins Vs three newly created \u2018Depressed Castes\u2019; this special table recorded only for Bombay. No such records were noted for other provinces. pic.twitter.com/a7SWXD6jLm

According to his book WWS, pge 21, Avarna means one who does not have any Varna? Seriously?

But the fact is, they are called Ashavarna NOT Avarna. Or in other term they are Varnshankara.

How could one make such fundamental error?

There is no identity like Ati-Shudra

14/n

As per our Shvetashvar Upanishad, BRAHM has been attributed with Avarna

His Sanskrit deficiency is clearly visible here. NOT to forget he read english translation of our Shashtras written by missionaries.

And we are stuck in such terminology. ■■■■■

According to his own writing, he read some smriti written by Bhargava. So, it is very clear that he never read Manu's Smiriti, and read something else in English translation due to his Sanskrit deficiency.

And he blamed whom?

He was having separatist view, just like Jinnah. Just Look from where is inspired.

"Moses offers land of promise to Jews, likewise he aimed to offer land of promise to Bahishkrit Class"
