Extremely important thread.

1. Real timeline of Hijab propaganda.

This thread is really important for the future of India.

You are going to know about the radical group and their propaganda.

You will also learn How communist media helped them.

So let's start ■

2. Early in September 2021, a radical and criminal student group Campus front of India(CFI) has started its membership drive in colleges including Udupi.

Campus Front of India is part of the radical Islam group Popular front of India (PFI)

3. Just after one month, in a very similar period, all four initial alleged victims of Hijab propaganda have opened their accounts on Twitter.

And started to promote the agenda of CFI by taking part in hashtag Champions.

4. Now here let me draw your attention to one point.

In an interview with BBC, one of the alleged victims has told that they were not members of CFI.

They have contacted them only after the Hijab controversy!

Repeated instances of vigilantism and hate speech against Muslims in the area have deepened religious faultlines and led to the rise of vocal minority-led groups that assert their right to religious freedom.

In this case, for instance, the college said the issue is further complicated by the involvement of Campus Front of India (CFI), the student wing of the radical Islamic group, Popular Front of India.

Ms Almas said she was not a member of CFI but contacted the organisation when the college stopped them from attending classes.

5. But was she saying the truth?

No, at least their Twitter timelines say a different story.

From the first day of their on Twitter, they were started to propaganda of CFI.

Let me show you some patterns of their posts.

6. They have started to post copy-paste tweets to take part in the hashtag Champion of CFI on 1st November 2021.

This hashtag was against the new education policy.

19. This proves that these girls were very well connected with CFI and their claim to come in contact with CFI only after Hijab propaganda is disloyal.

Now let's move on the important part of this propaganda.

20. On 31st December 2021, these girls and the state committee member of CFI, Masood Manna has started propaganda from a college campus.
