1/25 -The word #Secular has to b removed from our constitution. Its a word which has no meaning or truth. WE, THE PEOPLE OF INDIA, having solemnly resolved to constitute India into a SOVEREIGN SOCIALIST SECULAR DEMOCRATIC REPUBLIC and to secure all its citizens.

2/25-BRAmbedkar-chairman of drafting committee of constitution was against this.He rejected the proposal to include the word in the Preamble. Accord2him providing all fundamental rights 2the citizens-right2 speech,right2choose their religions itself shows secular status of India.

3/25- It essentially means the people of India have resolved to constitute a state which will have no connection with any religion/will not be bound by any religion. Here are the meanings of the word from various dictionaries.
-not having any connection with religion

4/25- -Not relating to religion or to a religious body; nonreligious:
-Not bound by the full monastic rule of a religious order.
-not within the control of the Church
-not bound by religious vows to a monastic or other order

5/25- The word #SECULARISM has been given very colorful noble interpretations by many from the time it was INSERTED into our constitution in 1976, thro the 42nd amendment.

6/25- Apparently, the supreme court said that in 1974 (two years before the amendment) although the secular word is not primarily maintained in the constitution, there can be no doubt that the constitution-makers wanted to establish a #secular state.

7/25- This was inspite of Ambedkar rejecting the proposal. Clearly there were forces within our nation and also forces from outside that were working hard to insert this particular word into our constitution. Why? Bcos they knew that Hindus will faithfully follow it & other WONT.

8/25- Hinduism is the only naturally #Secular religion in the world. All other religions are clearly against #secularism because they identify with and propagate the so called teachings of their one master/Guru or their one so called God.

9/25- Some Abrahamic faiths r categorically against all other faiths, deride them in every direct or deceptive way and consider it their sacred duty to even eliminate them or bring them into their fold. Practically most of Europe,the western world,Middle-East was thus established

10/25- On what basis does the Indian state accord special privileges to various religious groups (other than Hindus) after claiming itself to be #Secular . It seems #SecularIndia was established to destroy #Hindus

11/25- Citing #Secularism Hindu temples were taken over by the govt and the system to even inform #Hindus of the various aspects of their religion was thus closed. A #Secular state takes over the money from the temples and ensures Hinduism is not taught to anyone.

12/25- Thus most #Hindus do not have even basic knowledge of their religion and are ready apologists when it comes to their religion. A typical #Hindu neither knows even basics of his religion but is also misguided by commie+liberal literature that cant stop talking

13/25- about HInduism giving it all kinds of evil connotations citing all kinds of false narratives which they themselves prepared attributing certain local societal practices to the religion itself when in truth #Hinduism is all encompassing with the ultimate purpose in

14/25- life being the LIBERATION of the INDIVIDUAL. The constitution of India already had several safeguards which are meant to be common to all religions. Article 15 says that the State cannot differentiate its people based on religion, caste, birthplace and gender.

15/25- Article 16 says that there is an equal opportunity for everyone in the recruitment of jobs under the State, and State cannot differentiate based on religion.

The articles 25 to 28 are especially focused to give more religious Freedom to the citizens.

16/25- Article 25 allows every citizen to follow and promote any religions they want with total freedom. Whereas section 26 allows conducting any kind of religious functions, they want.

17/25- Article 27 restricts the State or government not to spend the taxpayers money in religious activity. Since all the religions are the same, the government cannot fund any particular religion.

18/25- Article 28 provides Freedom from attending religious activities at educational institutions. Article 29 and 30 of the Indian constitution protects the religious minorities in conserving their educational institutions.

19/25- In directive principles of state policy, article 44 orders the government to bring the Uniform Civil Code as per their continence. And yet, the states in India have done the exact opposite. Certain communities r pampered with special privileges, #Hindus have to

20/25- go thro all the difficulties even to start Educational Institutions whereas it is much easier for others to set up and in effect it will be shown later on in time that education in India happened because of these institutions where as Hinduism was

actually discriminatory..

21/25- in not willing to provide education for its followers. The temples of #Hindus have been taken over as though its the right or duty of the state to do so whereas no other religion's institutions are managed by the state. On the contrary, the state seems to support many..

22/25- religious activities of non-Hindus. Thus the only purpose of #SecularIndia and having the word inserted in the constitution is to ensure state control of #Hinduism at the expense of #Hindus

23/25- #Hindus should work to remove this word from the constitution. The other provisions in the constitution are enough and more to ensure freedom of religion in India.

24/25- The supposed 80% population being #Hindu is a farce. In reality the % would b in the range of 70% A particular community actually has a growth rate about 10% more than Hindus. Unless #Hindus wake up to address these issues, it will become lesser.

25/25-What basis is there for #SecularIndia to identify people as minorities+for govts to indulge in them for their bulk votes,wn the preamble says its a SECULAR state.This word has to be removed & all religious institutions functions with the same freedom granted in constitution

Does this bother anyone? #HijabRow #HijabBan
