@BillyBostickson

1. Strange goings on down at Uncle Sam's Farm in Ukraine?

h/t @DrKevinWMcCair1 video:

https://t.co/1lrFeWcakB

From Daily Expose:

U.S. DoD awarded a contract for ‘COVID-19 Research’ in Ukraine 3 months before Covid was known to even

2. The findings seem to be kosher and can "currently" be confirmed by:

1. checking the DOD Award to Black & Veatch
CONT_IDV_HDTRA108D0007_9700, here:

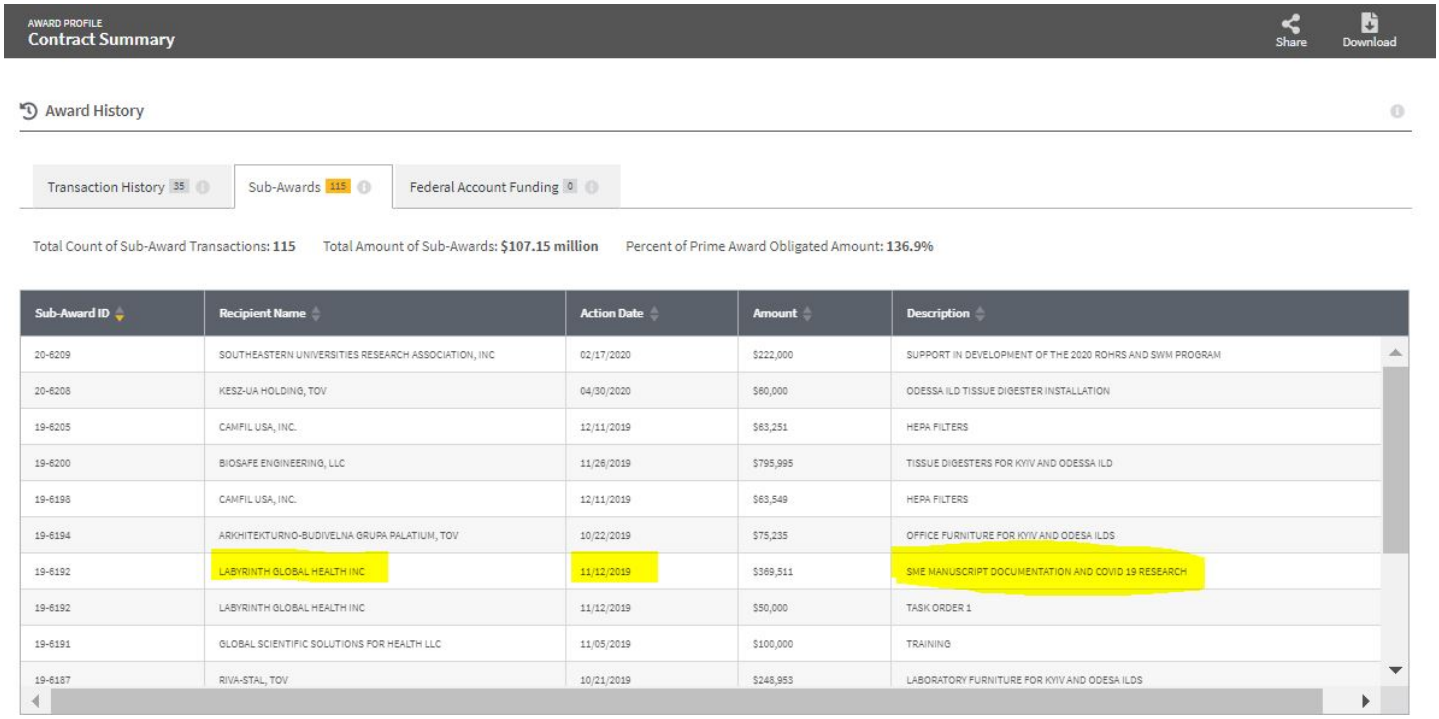

https://t.co/G5ZEUhPm5U

2. click the tab for sub-awards

3. 7th down from top

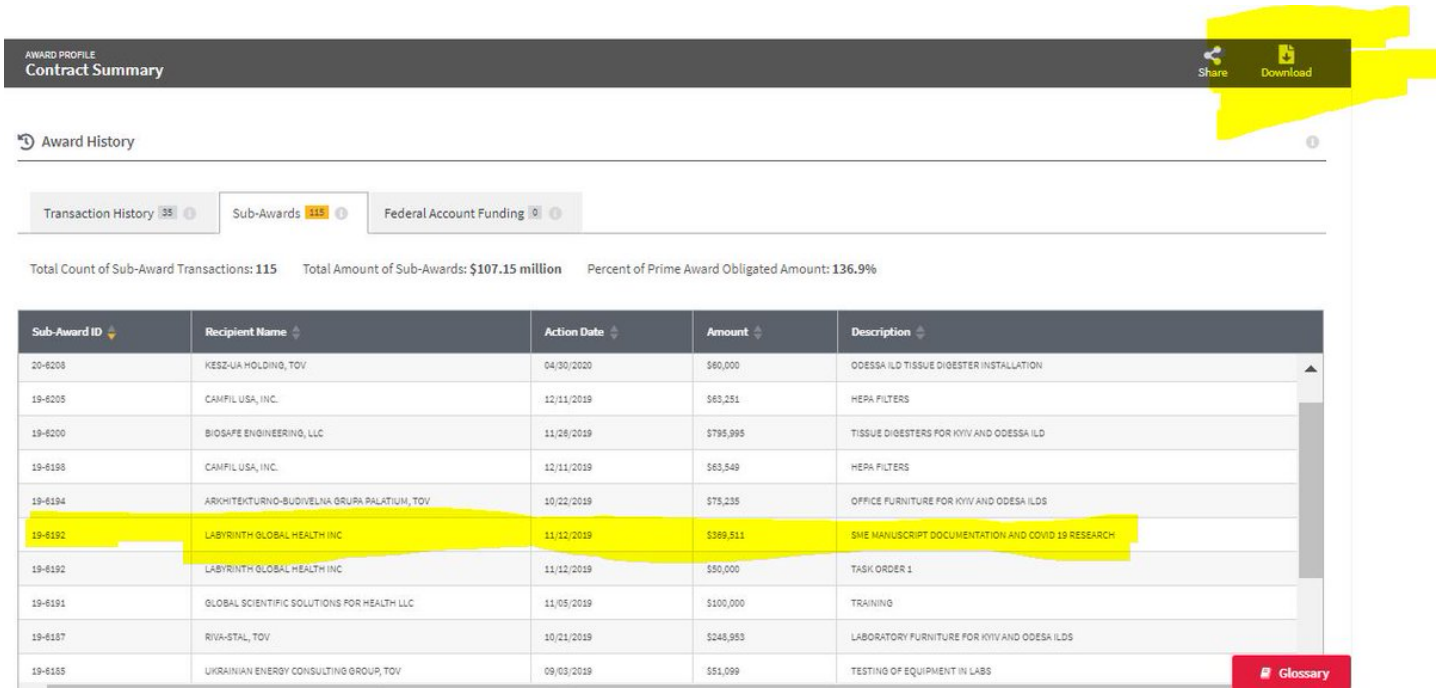

4. 19-6192 is the sub-award ID

5. Note Date

3. Download the CSV file by clicking top right:

Again Data is confirmed (with more detail in Column 32 in the csv file)

4. CSV Details (Column 32)

Note Kiev, Ukraine Mentioned and Date 2019

31	CONT_AWD_0004_9700_HDTRA108D0007_9700	4	HDTRA108D0007	84883523	9/21/2012	2012	9/26/2021	2021	97	Departm	9761	DEFENSE THREAT REDUCTION AGENCY	HDTRA1	DEFENS	97
32	CONT_AWD_0004_9700_HDTRA108D0007_9700	4	HDTRA108D0007	84883523	9/21/2012	2012	9/26/2021	2021	97	Departm	9761	DEFENSE THREAT REDUCTION AGENCY	HDTRA1	DEFENS	97
33	CONT_AWD_0004_9700_HDTRA108D0007_9700	4	HDTRA108D0007	84883523	9/21/2012	2012	9/26/2021	2021	97	Departm	9761	DEFENSE THREAT REDUCTION AGENCY	HDTRA1	DEFENS	97

5. CSV Details (2)

Mentions Labyrinth's HQ in Saint Petersburg, Florida, not Russia ;)

URL in CSV directs to original URL

https://t.co/G5ZEUhPm5U

Copy & Paste URL, not click.

Last column with date does not refute finding, it is:

"subaward_fsrs_report_last_modified_date"

14. Who is the Virus Hunter Dr. Nathan Wolfe?

On April 13, 2022

https://t.co/nz1rTA1jtc

15. Nathan Wolfe Timeline from above article

- 2007 – US DoD employee Nathan Wolfe founded Global Viral Forecasting Institute (subsequently – Global Viral), a biomedical company. The mission stated in the charter is non-commercial study of transborder infections, including in China.
- 2014 – Metabiota, a private commercial organisation specialising in the study of pandemic risks is detached from Global Viral. Neil Callahan and John DeLoche, employees of Hunter Biden's company Rosemont Seneca Partners are appointed to the board of Metabiota. Global Viral and Metabiota begin to get funding from the US Department of Defence.
- 2014 – Metabiota shows interest in Ukraine and invites Hunter Biden to "assert Ukraine's cultural & economic independence from Russia".
- 2014 – Metabiota and Burisma Holdings begin cooperation on an unnamed "science project in Ukraine".
- 2014 – Metabiota, Global Viral and Black & Veatch Special Projects begin full-fledged cooperation within the US DoD programmes.
- 2014-2016 – Implementation of Metabiota and US DoD contracts, including a $300,000 project in Ukraine.
- 2016 – former US Assistant Secretary for Defence Andrew Weber is appointed head of Metabiota's global partnerships department.
- 2016 – EcoHealth Alliance, a Global Viral founder Nathan Wolfe's structure, is engaged in the study of bat-transmitted coronaviruses at the research centre in a Wuhan laboratory, China.

- Xenogen IVIS® Spectrum animal bio-imager with luminescent and fluorescent imaging capabilities
- FACSAria II Flow Cytometer
- MAGPIX®, BioTek SynergyTM, and EnVisionTM readers in containment
- QuantStudioTM 6 Flex real-time PCR system
- KingFisherTM Flex Purification system
- DiaSys response® 910Vet Chemistry Analyzer and X-pediteTM HEM3 Veterinary Hematology Analyzer
- CH Technologies Bio-Aerosol Nebulizing Generator (BANG) nose-only

***In vivo* Testing of Medical Countermeasures**

- Production/characterization of pathogen seed stocks for animal studies
- Natural history of infection in animal models
- Determination of best indicators of infection and correlates of immunity
- Determination of optimal route and dose for pathogen challenge
- Animal model development
- Standardization of non-GLP animal models for use in "Proof-of-Concept" efficacy studies of countermeasures
- Toxicity and efficacy studies
- Monkeypox STAT1-defiicent mouse model for antiviral and vaccine development
- Rodent models for hantavirus studies
- High-containment GLP compliant BSL-2 and BSL-3+ laboratories
- Exposure system
- Aerosolized TB models

19. One of Labyrinth's co-authored Ukraine Papers

The co-author is David Mustra, his research profile:

https://t.co/oRpuLtrPGr

Supporting control programs on African swine fever in Ukraine

https://t.co/wTfMRQWW5C

ACKNOWLEDGEMENTS

The authors would like to thank the members involved from IVM (Larisa Muzykina, Svitlana Mandyhra, Ludmyla Ishchenko, Maksym Bezymennryi) and IECVM institutions (Yurii Dunayev, Olha Lymanska, Olena Kolchyk, Maryna Stegniy, Maxym Lohvynenko, Borys Stegniy, Olga Florova, Bogash Mikolay, Bogash Denis, Leonid Stoyanov), who participated in data collection and data transfer processes. We also would like to thank the professional translator for translating the questionnaire and facilitating communication between the institutions and to Martin Tušl for his support on the social science component. This work was funded by the U.S. Defense Threat Reduction Agency (DTRA) Biological Threat Reduction Program in Ukraine and the Cooperative Biological Research (CBR) project UP-10 ("Regional Field-to-Table Risk Assessment of the spread of African swine fever virus (ASFV) across Ukraine in wild fauna and via consumer trade routes-insight into the development of effective ASFV quarantine strategies and public policy"). The contents of this publication are the responsibility of the authors and do not necessarily reflect the views of DTRA or the United States Government. We thank members of the Black & Veatch Special Projects Corp science team for their assistance in facilitating the implementation of this study.

29. Back to David Mustra, a "Democrat Abroad"

He was a Legislative Fellow in the U.S. Senate office of Senator Hillary Clinton in 2007.

He could not contribute to DA for 6 years as an implementing contractor for USG & direct interface with Ukraine govt

https://t.co/v1Rpmrhhca

DAVID MUSTRA, UKRAINE

Please give us a brief biography.

Dr. Mustra earned his PhD in Pharmacology & Toxicology at Dartmouth Medical School in 2001 and brings with him twenty years of professional experience in science policy, legislative and regulatory development, science advocacy, and program and project management. His USG experience began in 2003 with the U.S. EPA where he participated in both rulemaking and the regulatory review process. David also served as a Legislative Fellow in the U.S. Senate office of Senator Hillary Rodham Clinton in 2007. Since departing Washington, David spent a year in the Federated States of Micronesia contributing as a Peace Corps Response Volunteer and also working as a consultant for the WHO. David is currently based in Kyiv, Ukraine where he recently completed a nearly six-year tenure as the Biosurveillance & Research Manager on the U.S. Defense Threat Reduction Agency's Cooperative Biological Engagement Program. Dr Mustra now serves as Labyrinth Global Health's Executive Director Science Policy & Strategy.

Describe your work with Democrats Abroad and cite your greatest contribution.

2. Trilateral Meeting with Ukraine, Poland & US Regional Collaboration on Biological Security, Safety & Surveillance (2016)

https://t.co/vY1aPhENPe

Staff of the Department of Epizootology and Veterinary Business Organisation among the participants of the working group of the Joint Biological Research Project on the distribution of ASFV in Ukraine

Share:

June 30, 2019

Within the framework of the Program for the Reduction of Biological Deterioration in Ukraine, a working group on education and information activities of the UP-10 Joint Biological Research Project held a meeting on "Regional assessment of the risk of transmission of African swine fever virus (ASFV) in wild fauna and through trade paths (farm-to-fork) in Ukraine, approaches to developing effective quarantine measures and strategies for controlling the ASFV". The project was approved by the US Defense Threat Reduction Agency on December 19, 2018 and aims at developing effective national outreach strategies.

The meeting was held by SAFOSO representatives, **Marco de Nardi** and **Violeta Munoz**, and METABIOTA representatives, headed by **David Mustra**. Teachers of the Department of Epizootology and Veterinary Business Organization, **Volodymyr Polishchuk**, **Vitaliy Nedosekov**, **Valeriya Yustynyuk** and **Iryna Makovska** were invited to participate in the event.

33. The US delegation included representatives of the US Department of Defense (K. Garrett, G. Braunstein, W. Sosnowski, J. Wintrol, etc.) & representatives of Black & Veatch & Metabiota Corporations (D. Mustra, M. Guttieri, S. Anderson, T. Borth, etc.)

34. The biosphere strategy manager for the research work of the Participatory Biological Activity Program, David Mustra, noted the positive dynamics of bilateral communications with the State Service of Ukraine for Food Safety and Consumer Protection.

https://t.co/iTrw8XXW91

The State Service of Ukraine for Food Safety and Consumer Protection is interested in implementing joint projects within the framework of the Biological Threat Reduction Program

Submitted by bashun on Mon, 10/30/2017 - 12:09

The meeting of the Chairman of the State Service of Ukraine for Food Safety and Consumer Protection Volodymyr Lapa with representatives of the State Research Institute for Laboratory Diagnostics and Veterinary and Sanitary Expertise and the Black & Veatch Special Projects Corp. for Current and Future Collaborative Biological Researches Programs for attracting to the general biological activity of the Agency to reduce the biological threat of the US Department of Defense.

35. Black and Veatch "Special Projects" Corp (Kyiv)

Job Offer (2019) CV to be sent to Dr. David Mustra

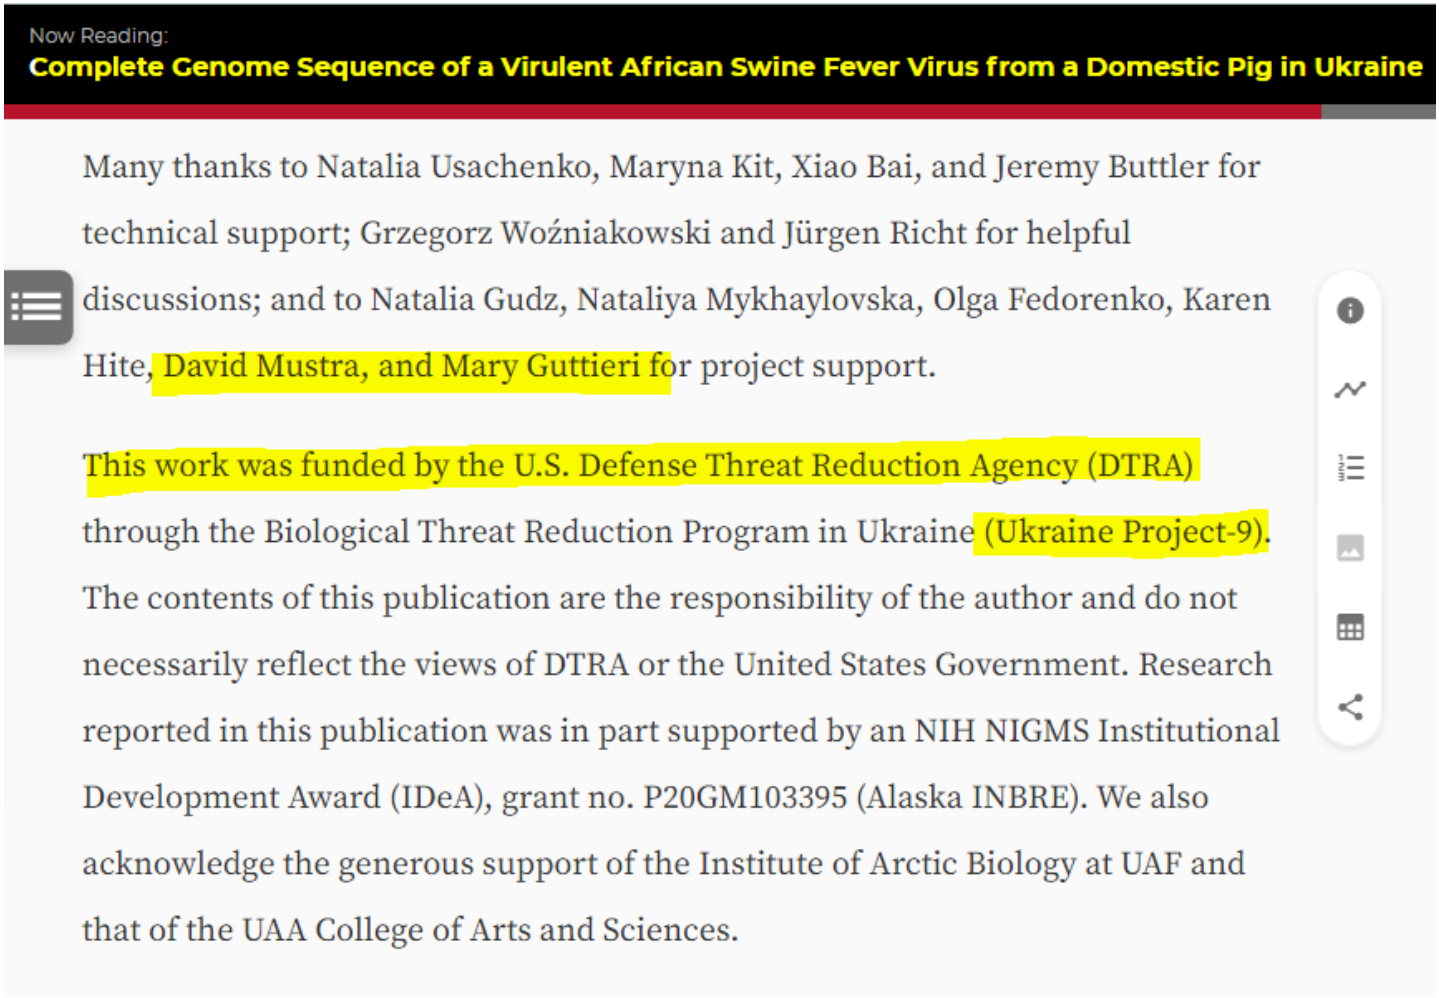

https://t.co/uFP9RduLGU

- Facilitate Ukrainian participation at BS&S-related events (e.g., conferences) and sustainment of expertise regarding internationally recognized BS&S practices
- Attend meetings between BVSPC/Metabiota, US Government, sub-contractor, site recipient representatives, and others as may be required
- Engage in other tasks in support of the Science Department, BVSPC and DTRA regarding BTRP-Ukraine as may be required
- Other duties as assigned

36. Complete Genome Sequence of a Virulent African Swine Fever Virus from a Domestic Pig in Ukraine

"Many thanks to...David Mustra & Mary Guttieri for project support.. funded by US Defense Threat Reduction Agency (DTRA) through BTRP Ukraine Project-9"

https://t.co/zLzZV01K4Q

37. Here's David Mustra Calling for a No Fly Zone and NATO troops on the ground in Ukraine:

Humanitarian risks warranting immediate US/NATO intervention in Ukraine (March 9, 2022)

https://t.co/IWJc0h0tAy

38. David Mustra seems quite phlegmatic about the possibility of a wider conflict and nuclear war, while seizing the opportunity to deny the "bioweapons" claims and demand NATO air and ground forces in Ukraine.

Humanitarian risks warranting immediate US/NATO intervention in Ukraine.

Sean Bortz[1], Denys Muzyka[2], Mykola Sushko[3], Neil Bortz[4], H.D.[4], Anton Gerilovych[2], David Mustra[5], Tetyana Vasylyeva[6], Eric Bortz[4,7,8] *

Co-Signatories: S. Nychyk (Director, NAAS IVM: Kyiiv, Ukraine), S. Mandyhra, PhD (Ukraine), I.G. (Ukraine), I.K. (Ukraine), M. Ramishvili, PhD (Georgia), L. Ninua (Georgia), I. Dubchak Ph.D. (USA), M. Redlinger (USA), A. Klink (USA).

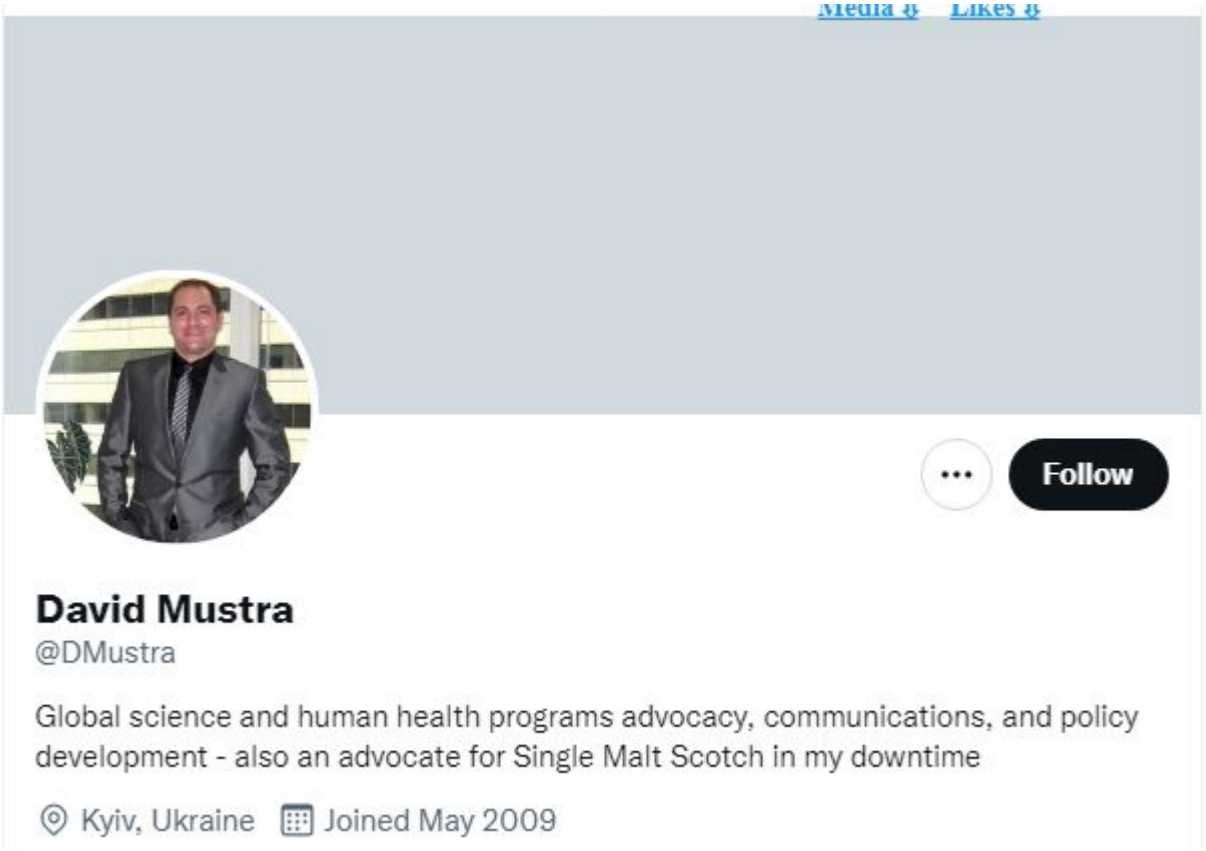

39. David also insists on provision of long-term logistical support for the Ukrainian military including advanced weaponry, ammunition, supplies, intelligence and training.

I thought he was an African Swine Fever Specialist?

Conclusions and immediacy. We strongly advocate, based on the ongoing, devastating impact of the Russian Federation's invasion on civilian lives and the sovereignty of Ukraine, for immediate imposition of a US/NATO-enforced No Fly Zone. We also advocate for expansion of other support measures including planning for a ground-based stabilization force under US or NATO auspices, logistical and humanitarian support, and continuation of economic sanctions on Russia, and political alienation of Russian Federation leadership. If the Russian President is allowed to install his proposed puppet government in Kyiv under the leadership of ousted former president Viktor Yanukovych, it is clear that Ukraine's future will be as a protectorate of Russia and that it will be removed from the European community for generations to come.

40. Of course, everyone is entitled to their opinion, and David Mustra certainly expresses his opinion on Twitter as well

https://t.co/NCcALvAI97

41. More in a similar vein, even promoting the by now debunked (see Hamish De Gordon) claims of chemical weapons use in Mariupol

David Mustra Retweeted

Anton @PeelTheFern · 19h

Replying to @OSINT88

It's official now: according to Russia's state news agency RIA Novosti, ammunition exploded on board the #RussianNavy cruiser "Moskva", after #Ukrainian reports of two of their "Neptune" anti-ship cruise missiles having hit the ship and setting it ablaze:

> **РИА Новости** @rianru · 19h
>
> Государственное издание, Россия
>
> На ракетном крейсере "Москва" в результате пожара сдетонировал боезапас
> ria.ru/20220414/kreys...

42. That's all we know about Mustra right now.

Note:

US vigorously defends its DTRA & BTRP program in Ukraine, Georgia & elsewhere, denying any nefarious intent, in a short video cleared for public release in 2019.

BTRP - Setting the Record Straight

https://t.co/tajni8ldt6

43. Did you watch that video (4 minutes)?

Now imagine if, instead of the US Ambassador to Kazakhstan & Charge d'Affaires to Georgia, you were watching the Russian Ambassador to Canada & Charge d'Affaires to Mexico saying the same about GRU funded biolabs in Mexico and Canada...

44. My previous thread on the bioweapon lab claims

(I approach it from a propaganda analysis perspective)

https://t.co/ekHrnEPZJJ

> 1. The "Bioweapons" Labs Narrative is Getting Hotter
>
> The main point is that DTRA & the Pentagon scored an own goal by funding, transforming and modernising so many biosafety labs in ex Soviet States.https://t.co/yI0x4cTP6V
