Anyone who has been paying attention over the last decade has noticed that white Americans in particular are being aggressively propagandized by mass media to engage in interracial relationships. This is not an accident of race relations policies...

Rather it is a concerted effort by the global oligarchs to deracinate whites en masse through the generational reproduction of multiracial children. What is pitched to us with undertones of guilt as some kind of reparatory act of cross-racial solidarity is indeed deceptive.

The true object of such coercions is to shatter ethnic solidarity across the board, creating a mosaic of alienated, unrelatable mixed race people. The purpose of which is to divide and conquer, laying the groundwork for global consolidation of power and the free flow of capital.

This is differentiated from the ethnogenesis of Guadalupe, which was exclusive to two racial groups for the purpose of uniting them under the aegis of Almighty God and the spreading of Christianity in the New World.

Contrast this from our own ethnogenesis which is done through subtle manipulation and social ostracization, between not two racial groups but all racial groups. This is intentional, for two racial groups can become one but ours is anarchic to prevent even a primitive solidarity.

The ethnogenesis we are being coerced into is a diabolical inversion of the one that took place in Mexico. Ours is done not for the love of God but for the love of money and worldly dominion.

Many who read this will have an immediate, conditioned response against what I have to say, proving my point. You are the pawn being moved around the board to exact the will of powers unknown.

I explain this much as a caution to those who are tempted to engage in interracial relationships - that in our time in particular it is very dangerous to do so, for you engage in a project that is beyond your understanding and to the detriment of the common good.

God created the races of the world and their many ethnicities for His ends of social organization. Do not fall for the siren song of global racial homogenization. It is a neo Tower of Babel and will predicate the same punishments.
