To learn web3, you must change how you think.

Here are 22 videos that UPGRADE your thinking (and your life):

1. 30 years ago the internet barely existed.

But today, it's an inescapable force that shapes every aspect of our behavior and our lives.

Conversation with @peretti and @cdixon

https://t.co/OGo60IJFyY

2. Some people see web3 as a threat.

But it's probably the greatest opportunity humanity has ever been offered.

TED Talk by Shermin Voshmgir @sherminvo

https://t.co/SL2RNRhnmH

3. A smart contract sounds like some new-fangled annoyance.

But it's computer code that solves previously unsolvable problems.

TED Talk by Olga Mack @OlgaVMack

https://t.co/ZVK80DT3Qe

4. NFTs might seem like a scam or a fad.

But in fact, they are sexy new tools that are building us a better future.

TED Talk by Kayvon Tehranian @saturnial

https://t.co/Z4zIpnfr4n

5. Many people think web3 is just for crypto bros.

But it can make a teenage girl in Bangladesh the equivalent of a middle-aged man in Silicon Valley.

TEDx Talk by Laura Shin @laurashin
https://t.co/MUumMCbyYG

6. Education systems are woefully inadequate.

But with blockchain technology people can access the highest quality education anytime and anywhere.

TEDx Talk by John Domingue @johndmk

https://t.co/A5V5rhCpic

7. Humanity seems to be facing more challenges than ever.

But web3 can bring us closer to a world of justice, equality and freedom for all.

TEDx Talk by Hasnaeen Rizvi Rahman @hasnaeen

https://t.co/afWIrS9hE9

8. Whether you like it or not, your private information is being stolen and sold online.

But in web3, only you control your data.

TEDx Talk by Zenobia Godschalk @zenobiaZAG

https://t.co/lI10RBxkPl

9. Cynics say web3 will be just another version of the web that exploits users.

But web3 is a new paradigm that puts power directly in the hands of artists, content creators and users.

@emilychangtv chats with @katie_haun

https://t.co/WWCFXQ8hg1

10. Musicians have historically been exploited.

But in web3, musicians can own their art, build their community and make a viable living.

@mattmedved and @samhysell talk with @CallMeLatasha

https://t.co/XGSVDepCNi

11. Cryptocurrencies may be volatile at times.

But web3 still gives artists security and economic stability.

@CamiRusso talks with @YKarkai

https://t.co/1hWiNIecNf

12. Trade secrets, intellectual property, control of a scarce resource are all core components of capitalism.

But they are outdated in web3.

Ali Yahya @alive_eth on how the blockchain rewrites business models and creates opportunity

https://t.co/NnwuPOrFNj

13. Ethereum might seem impossible for you and me to understand.

But with the right explanation anyone can grasp how it works.

@naval talks with Ethereum creator @vitalik

https://t.co/L9xa5b5D4w

14. Founders traditionally care only about their own companies.

But web3 founders are supremely focused on building a better world.

@vitalik talks building democracies, cities and states

https://t.co/SfjXnnNTG5

15. Wealth building has always been reserved for the 1%.

But in web3, social tokens and DAOs allow individuals to create wealth rather than just revenue.

@CamiRusso talks with @thattallguy Jess Sloss

https://t.co/dmhGsRpO9X

16. Gamers are often considered losers, wasting away their time.

But in web3, gamers become owners and get paid to play.

@SahilBloom and @gregisenberg talk with @Jihoz_Axie of Axie Infinity

https://t.co/8YRusTWUb1

17. In the past, only nation states could print money.

But in web3, individuals can make their own digital currency.

@APompliano talks with @Bradley_Miles_

https://t.co/QmfGZufiEm

18. Technology and human rights haven't always gone hand in hand.

But web3 technology empowers activists and human rights orgs to create immediate change.

@mattmedved and @samhysell talk with @pussyrrriot's @tolokno

https://t.co/JgAIpvjenV

19. Life online sucks because it's controlled by big tech.

But in web3, ownership shifts to the user and together we can create a powerful new experience.

@laurashin @gaby_goldberg @chaserchapman @patrickxrivera

https://t.co/Nst7EQ2tqE

20. Most people spend their lives doing jobs they don't like.

But in web3, you can earn a living doing work you love. All you need is 100 true fans.

@ddwchen and @anay_sim talk with @ljin18

https://t.co/yIYO6gq6iq

21. Businesses have traditionally been built around products and services.

But in web3, businesses are built around community.

@sahilbloom and @gregisenberg talk with @alexisohanian

https://t.co/HcFaJSHt2g

22. People might think web3 is just a few crazy people with crazier ideas.

But web3 is a global movement that is building a very new world.

@LaurieSegall talks with @cdixon

https://t.co/sOjmIDaHmH

That's it, folks. I hope this was useful.

If you enjoyed it, please share by retweeting the first tweet.

I write about the ideas, trends and people shaping web3 and our future. You can follow me @MishadaVinci.

Learning web3 on your own can be overwhelming.

Join my course and get into the game, the easy way.

But hurry, May 2nd is the last day to register.
