$MAHA AMA ALPHA THREAD

VENEZUELA:

-After many months of negotiations Maha is finally LIVE in Venezuela
-MahaDAO has teams on the ground signing vendors up
-ARTH has been used to buy a burger for the first time
-ARTH wallet is a gasless
-Every Venezuelan will be given $MAHA■

$MAHA LENDING PROTOCOL- Important for scaling, and attracting new people.
-Launching in June
-The first lending protocol that lets you lend/borrow staked LP tokens with $ARTH

$MAHA GMU PEG UPDATE:

The GMU peg is COMPLETE ■ This will make $ARTH very different than other stablecoins. ARTH will appreciate in a bull market and remain stable in a bear.

Major developments with $MAHA chain:
The world's first L1 with economic incentives created by economists. Speculation this will make Mahachain usage larger than Terra. More details are coming soon. Arth wallet is a gasless wallet and key to adoption.
Cont.

$MAHA NFTS ■■

Maha is creating NFTs with a usecase not seen in L1s.
-Massive utility: You can vote stake earn rewards/fees and boost yields
-They look really good: 5 NFT artists are working on the NFTs. They will resemble the brand and help grow our community

$MAHA NFT UPDATE:

This will be the first NFTs with a jpeg that are backed by the governance token.

You will need to lock $MAHA tokens to get the NFT benefits. This creates intense demand for the $MAHA token.
-Limited series according to how many MAHAs you have
-VeNFTs ■■■■

$MAHA NFT owners will earn fees from BRIBES as well. This monetizes your NFTs to the next level and allows others to use your vote power in exchange for fees.

You can BOOST staking rewards by 5 times!! 5X! Make sure to learn about the NFTs as it

$MAHA NFTs will be launched on MahaSTARTER. This means buying maha and locking them to gain exclusive access.

JPEGS will only be avail to those with more than 100 mahax. Scarcity will exponentially increase as people buy $MAHA to mint NFTs. Existing stakers will be given JPEGS

Team Expansion:

$MAHA now has dedicated customer support
-Hired more devs/ops, artists
-The team is expanded to support the NFT and Lending protocol new community members

$SCLP is the worlds first Defi Bank, and will provide services worldwide. $ARTH is one of the chosen forms of payment on the $SCLP platform. ScallopPay is key to the adoption of ARTH

$LUNA INCIDENT: What did MahaDAO learn?

-Maha extends condolences to luna community.
-ARTH will be backed with 110% collateral, not backed by $MAHA, instead ETH and BTC

GOD LEVEL $MAHA NFT = 25,000 MAHAX

List your locked MAHA onto OpenSea. This creates a secondary market for the $MAHA token. Stake more maha, and your NFT can evolve to the next level. This secondary market is extremely interesting and will prevent whale dumping on the charts.

$MAHA CHAIN

-In the process of finishing documentation and preparing for testnet. Mostly waiting for the community to grow 3-5, maybe 10x where it is today. Then MAHACHAIN will launch to the masses. Maha goal is to become a very large inflation-proof tribe/community

Goals for Maha team size: $MAHA is continuing to hire even in a bear market. Steven is only accepting grade-A contributors, and people of talent to support the vision. Apply if interested.

$MAHA NFTS get you exclusive invites to $MAHA events.

You will get posters, t-shirts, invited to exclusive events, invited to closed-door celebrity meet-ups. The rarer your NFT, the more unique your benefits. More ann coming

Only 3 million $MAHA in circulation, of which 18% is locked in staking. NFT project is expected to significantly shrink the circ supply. 25,000 coins provide the top-tier NFT.

UPDATE ON $FTM x $AVAX x $MAHA

FTM and AVAX are on hold to focus on making the maha engine bigger, these chain launches are scheduled now for end of June. This provides the team a small break to focus on the TVL and core products first.

Exchanges' interest in $ARTH:

$MAHA team is speaking to many of the largest exchanges. Specifically, tier 1s. There is also a global partner product launching soon related to this. ■

Will there be airdrops for $ATOM stakers:

Yes. Once Mahachain goes live there will be a large campaign to provide incentives to ATOM validators, participants.

REMINDER:

This is not financial advice. You must do your own research. I am heavily invested in $MAHA and have locked my tokens for 4 years and will be here for the entire duration.

Personally, entry under $20 feels very good to me. NFA. Only invest what you can afford to lose

Here is the link to view the AMA for your own research :) https://t.co/B6axbarSY4
