REASONS FOR OFFERING WATER TO SHIVLINGA

Wherever a Shivlinga is worshipped, all negative energies are destroyed. Shiva takes away the negative just as he took Halahal (■■■■■) during Samudra Manthan.

Thus, hot energies continuously flow through a Shivlinga and pouring water over the Shivlinga gives calming effect.

Also, Aagya Chakra lies in our forehead. Here, two important Nadis (■■■■■)- Ida (■■■■) and Pingala meet. This is the main seat of Shiva.

Offering water on Shivlinga is actually offering water on Aagya Chakra.

The positive movement of energy leads to purification of thinking.
