EXCLUSIVE THREAD

1. Wife of a CPI(M) leader, works for an NGO which is funded by the Ford Foundation and Soros. Why?

What is the connection between The Wire and Ford Foundation-funded NGO?

What Is the Connection between IPSMF-funded anti-Hindu media and a foreign-funded NGO?

2. Ford Foundation has started an NGO National Foundation For India (NFI), which was inaugurated by former PM and then finance minister Manmohan Singh in 1992.

Below were the founding trustees including Ratan Tata, N. Ram, Manmohan Singh, and P. Sainath.

nfi.org.in/who-we-are

The work of NFI is driven by the vision of a plural, equitable, and democratic society

In 1990, Bharat Ratna recipient, C. Subramaniam, Dr. Kamla Chowdhry, and Dr. M. S. Swaminathan along with other leaders from the world of the media, arts, business, academia and the government came together to seed National Foundation for India (NFI).

Headed by Dr. Gordon Conway, the office of Ford Foundation, Delhi commissioned an in-depth study on the state of philanthropy in India. Pushpa Sundar presented this study in June 1990, which led to the birth of NFI at Raj Bhawan, New Delhi in January 1992. The launch was inaugurated by former Prime Minister and then Finance Minister, Dr. Manmohan Singh, and a permanent office was established at the India Habitat Centre, New Delhi in 1995.

Other founding trustees - Ratan Tata, S.P. Godrej, Dr. Devaki Jain, Dr. Verghese Kurien, Begum Bilkees Latif, and Dr. David Arnold played a key role in shaping NFI's management structures and program strategy in the initial years.

P. B. Krishnaswamy, our first Executive Director, a former civil servant, laid a robust foundation of systems and procedures. G. S. Ghose with his experience in the corporate sector succeeded him and invigorated the organisation financially. Ajay Mehta spent a decade helping the institution and helped root NFI's presence within civil society across the country. Amitabh Behar expanded on NFI's work on governance, especially on the Sustainable Development Goals and enhanced the programmatic resources of the institution. Jashodhara Dasgupta, redefined NFI as an institution responsible for shaping Indian philanthropy and strengthening civil society through the core areas of governance and inclusion.

Well-known rights activist Biraj Patnaik, the current Executive Director, is leading the change process in the institution to make it more responsive to the challenges currently faced by civil society in India.

ROUND 2 (ENGLISH)

9. What do you need to qualify for this fellowship? I think one must be anti-Hindu or anti-India to receive this fellowship. Let me show you tweets of a few so-called journalists who are funded by NFI and who writes for anti-Hindu leftist media cartels.

10. Meet Rohit Lohia. Read His tweets where he compares Hindus with Nazis and he wants Free Kashmir!
How can you expect fair journalism from these types of people?

14. This is very dangerous for the future of our county. These people get brainwashed from the leftist universities and later they join foreign-funded and foreign-supported leftist media houses.

15. In the names of Dalit, Muslim, Adivasi, and Women, foreign-funded NGOs are creating hate against each other.

Do you know any leftist leader who has arranged any meetings between two communities or castes?

16. You won't find a single leftist leader or organization involved in the solution.

They just want to create a rift between castes, and communities by provoking one while appeasing another one.

17. Fake activist like Teesta Setalvad and her cartel gets huge funds from the same foreign cartels including Ford Foundation, Soros, Omidyar, Bill Gates, etc. For what?

18. Today I don't want to take the names of big Indian businessmen who are actively involved with this foreign-funded leftist gang and NGOs like the Ford Foundation. People know their names now!

19. People think that communists are against big corporates, but in reality, they are against the corporates who do not fund them or who are not part of the international elites cartel!

20. This Anti Hindu and anti-India leftist propaganda media are creating fake narratives against India and Hindus in India and abroad.

They are part of the international elite-funded propaganda cartel.

That's why you can see them in Hawaii
