On the right, bamboo stalks are visible, and the "tiny png" logo is in a dark oval. Free and paid domains

Freedom is the world's first and only free domain provider. Our mission is to bring people online and help countries develop their digital economy. Free domains work exactly like any other domain name. You can use it for your website, your blog, email account and more! You can choose to run your free domain with URL Forwarding, free Freedom DNS Service or your own DNS (Name Servers). Domain extensions currently available for free registration:

Free, Paid and Special Domains

Not all domains can be registered for free. A limited number of domains are considered "Special" and can only be purchased. Their price varies and pricing is displayed during the availability check.

For example, all 1, 2 and 3 character domains, as well as common dictionary keywords, are considered Special.

All other domains (those that are not Special) can be either purchased (Paid domain) or registered for free (Free domain). Compare and choose between the two options using the table below:
