## 5■■ Mathematics for Machine Learning resources you must check! ■

■ ■

1■■ StatQuest:

BAM!!

Joshua Stammer's fun take on teaching Stats & Mathematics for ML to masses is an absolute gold mine ■

Check this out ■

https://t.co/4PrkGdJ5SH

2■■ Statistics, Khan Academy:

Taught by Sal Khan himself ■

It's a top-top place to learn Prob/Stats ■

■ I still refer it ■

Check this out ■

https://t.co/BkGP6UC8eM

3■■ MIT OCW: Mathematics for ML

The course offers a comprehensive overview of mathematics for big data and ML.

It comes with lecture notes and exercises from MIT.

Check out the playlist ■

https://t.co/af1leuKcji

4■■ Linear Algebra by Gilbert Strang:

Taught by the pioneer himself, Prof. Gilbert Strang. ■

There isn't a better place to learn Algebra in the entire world. ■

Check this out ■

https://t.co/KU5cxND0qQ

5■■ Mathematics for Machine Learning:

Taught by Imperial College London, it's a wisely curated course.

Covers Statistics, Algebra & Calculus.

Check this out ■

https://t.co/FQAhj2QwyO

That's all for today!
Hope you enjoyed reading!! ■

I’m from India ■■
Trying to simplify python, maths and machine learning for you.
