Parents, teach your sons these 9 skills and set them 10 years ahead of 99% of their peers...

1. How to clean and organize their space

A clean and organized man is focused.

A disorganized man is a turn off.

Teach them how to;

- Make their beds
- Clean their rooms
- Stay clean and neat

It's attractive.

2. How to cook

A man who knows several recipes is attractive.

There's also no reason they should marry young because they can't cook.

3. How to dance

Men dance, but not twerking on tiktok, Instagram and snapchat.

If you can't, send them to a dance class.

The world has enough soy already.

Raise a strong son who can dance with his wife.

4. How to talk to girls

You can't teach him how to be a man.

But dealing with women is just as important as being a man.

He ought to know;

- When to talk
- What to say
- How to

You'll give him an unfair advantage over his peers.

5. How to be kind but not overly kind

Men grow thinking they should be saviors.

Let him know when to be kind and to who.

6. How to talk when it matters

Teach your son the importance of dealing with their issues before expecting anyone to help them.

A "needy man" is despised.

As men, they should only tell enough but listen a lot.

7. How to do laundry

To raise an all-round son, he needs the basics.

Most basic skills are boring but they're vital.
