Stop and watch this video.

Whatever you thought about the governors' stunt... it turns out it was

DeSantis sent a videographer because he was trying to make an audition tape for the presidency.

Well, we've gotten a pretty good look.

Let's make sure this never happens.

When a politician performs cruelty.

They are showing you their nature.

Believe them.

Don't let supposedly sober voices tell you different.

Grab a pen.

Write your feelings about DeSantis on a post-it.

Stick it somewhere visible.

Democracy will thank you in 2024.

And they cheered.

As long as DeSantis sees a political upside, he'll deliver more sadistic spectacles.
