Main problem most breakout traders face is false breakout. So if we understand other side of breakout trading false breakout can also be used as a trading opportunity . Read this thread i have shared few examples.

Chart example - 1

Scroll down■

Rather getting confused whether the breakout will be a success or failure - look in perspective of double opportunity

Chart example -2

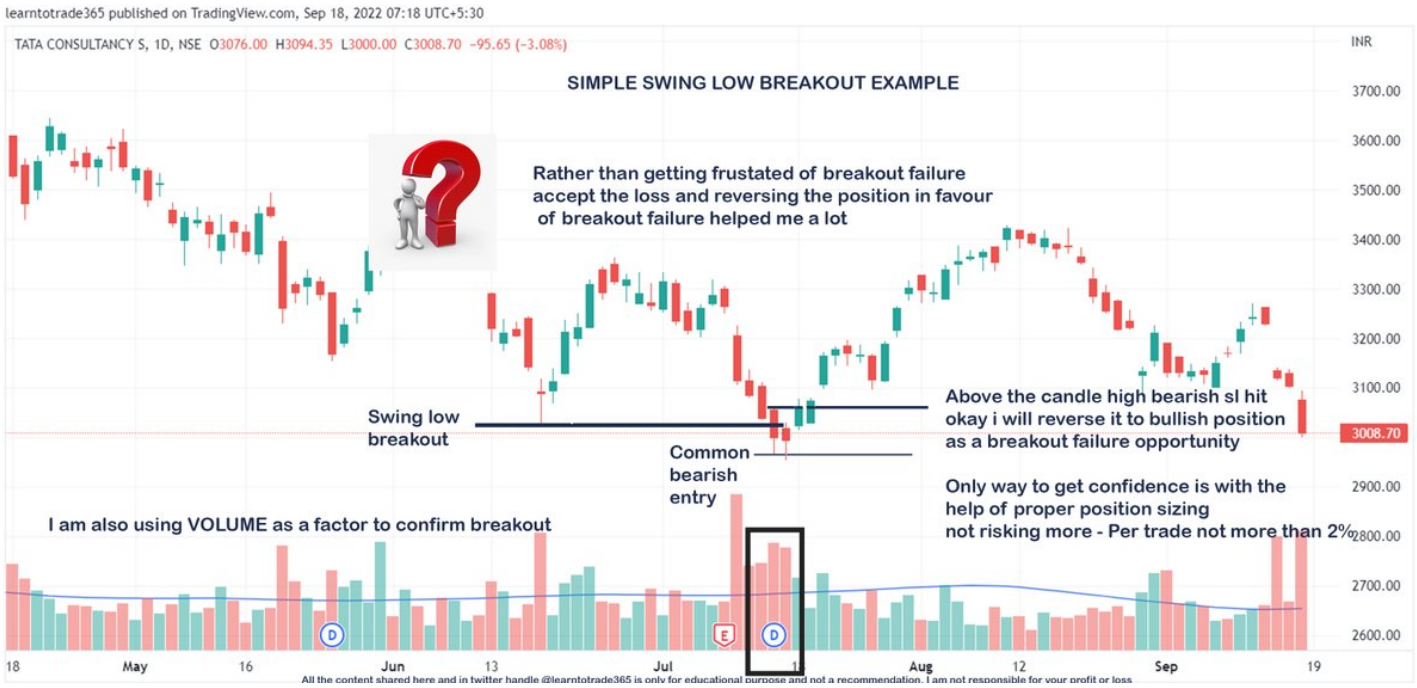

Scroll down ■

Breakout trading using simple Swing levels. Below example is about making use of false breakout as a trade opportunity. Controlled position sizing can only help a trader to become profitable

Chart example 3

One more example using simple swing levels. In breakout trading volume plays a very important role. Even with good volume breakout can fail - that is were i make use of false breakout as a trade opportunity.

Chart example 4

Scroll down■

I have used simple SMA 20 to under whether volume is good or low. Check the below chart to understand

Chart example 5
