Some preventive measures for Lumpy Virus affecting cattles

- Deworm using castor oil and turkeyberry / sundakka with jaggery

- Add neem powder, turmeric powder, shikakai powder in cows bathing water 1/2

- Make a paste using Turmeric powder, Neem powder ,coconut oil apply over feet ,face over stomach

- Put a dhoopa using dried neem leaves,loban and white mustard thrice daily

-Sanitize cowsheds using water diouted with rock salt and turmeric powder

- Soak fresh 2-3 handful tender neem leaves in 30 litre for 30 min mix with wheat husk/rice bran with handful jaggery to the cows

- Feed Agathi keerai sumptuously twice along with boiled or soaked channa dal to improve their immunity

- keep cowsheds floors near dry

- Watch the salivation of cows are usual and ensure they are hydrated thoroughly

- Wash green pastures using neem and turmeric water then feed

- Don't send out for grazing unknown areas

- Bath the cattle in brahmamuhurta do puja at sunrise

- Make cows to listen carnatic music

Its proven cows feel happier when they listen to music and appear less stressful
