YouTube is a free university.

But there are more than 38,000,000 channels there and it's hard to find the good ones.

Here are 10 channels that will make you smarter:

1/ Kurzgesagt (@Kurz_Gesagt)

Animation videos explaining things with optimistic nihilism.

https://t.co/R45YxcJp1U

2/ CrashCourse (@TheCrashCourse)

Short courses on a wide variety of subjects, including organic chemistry, literature, world history, biology, philosophy, theater, ecology...

https://t.co/h35JCEEgtO

3/ Veritasium (@veritasium)

An element of truth - videos about science, education, and anything else interesting.

https://t.co/qwxE2CfiEM

4/ Practical Engineering (@HillhouseGrady)

All about infrastructure and the human-made world around us.

https://t.co/mrFpXJuRGX

5/ Talks At Google (@talksatgoogle)

Influential thinkers, creators, makers, and doers talk about their work, their lives, and what drives them to shape our world.

https://t.co/qRq0SZK6fd

6/ Skillshare (@skillshare)

Skillshare is an online learning community for creatives.

https://t.co/8oBlM3BOhm

7/ Vsauce (@tweetsauce)

Videos that feed the curious & illuminate the amazing.

https://t.co/kJUbXsEdd6

8/ Numberphile (@numberphile)

Videos about numbers and mathematics.

https://t.co/MRksa89Glw

9/ freeCodeCamp (@freeCodeCamp)

Learn to code for free.

https://t.co/QNIu5PB2zE

10/ Khan Academy (@khanacademy)

Videos that help students succeed in math, biology, chemistry, physics, history, economics, finance, grammar, and many other topics.

https://t.co/HeiphiMCK2

You can find a ton of resources like this in my pinned tweet @denicmarko.
