11. Hemingway App

Improves your writing style and readability by catching 4 basic writing issues:

- Adverbs
- Passive voice
- Complicated words
- Complex phrases

A must-have tool for all content creators.

The screenshot shows the Hemingway App interface. At the top, there is a toolbar with options: Bold, Italic, H1, H2, H3, Quote, Bullets, Numbers, and Link. Below the toolbar, the main text area contains the following content:

Hemingway App makes your writing bold and clear.

The app highlights lengthy, complex sentences and common errors; if you see a yellow sentence, shorten or split it. If you see a red highlight, your sentence is so dense and complicated that your readers will get lost trying to follow its meandering, splitting logic — try editing this sentence to remove the red.

You can utilize a shorter word in place of a purple one. Mouse over them for hints.

Adverbs and weakening phrases are helpfully shown in blue. Get rid of them and pick words with force, perhaps.

Phrases in green have been marked to show passive voice.

On the right side, there is a sidebar with the following information:
