## 8. Synthesia .io

Easily create professional videos from text with this AI.

You can create animated videos with AI avatars and voices in over 60 languages, saving you time and money.

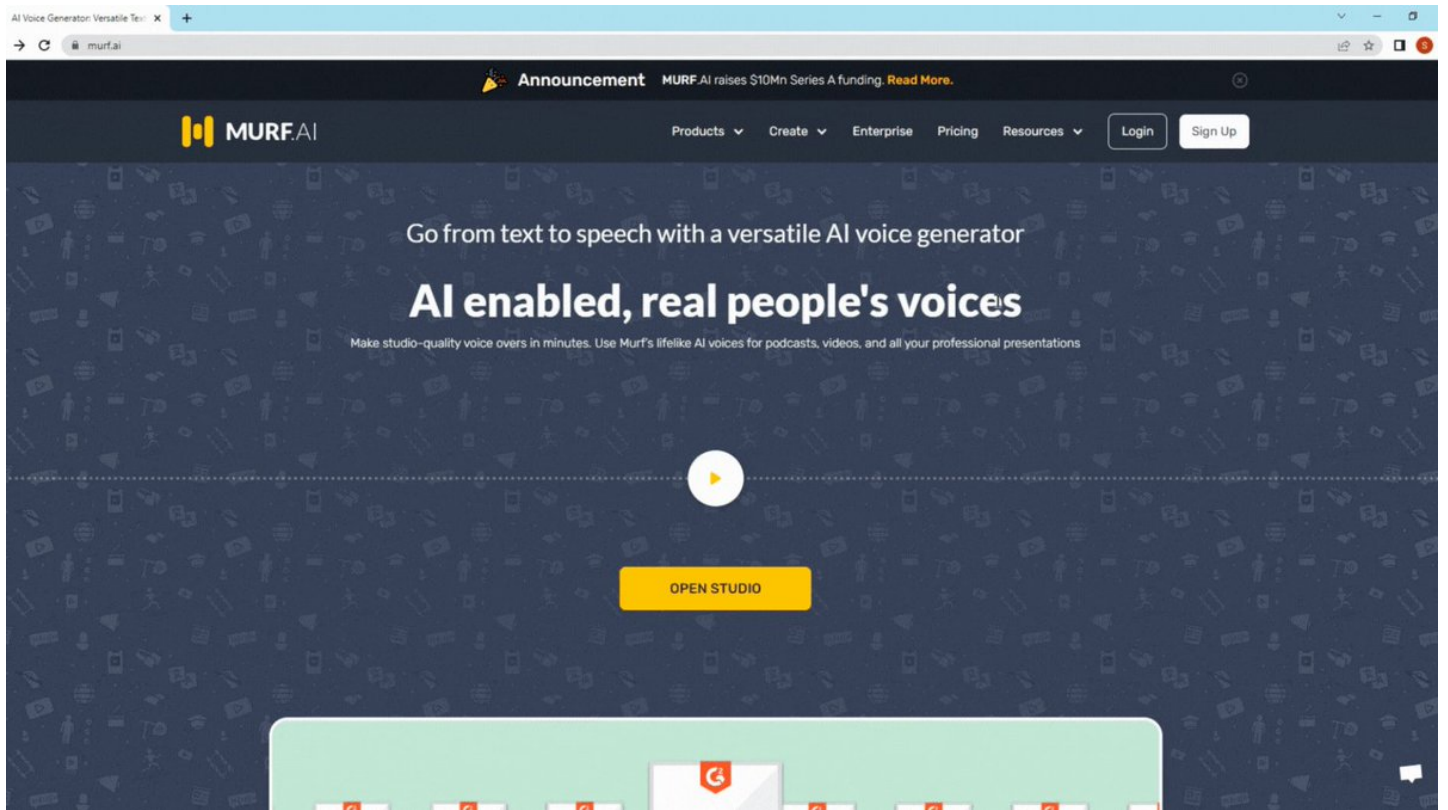

The screenshot shows the Synthesia website interface. On the left, there is a heading "Create professional videos in 60+ languages" and a sub-heading "Synthesia is a web-based platform for creating videos with AI avatars and voices. Thousands of companies use it to create videos at scale, 80% faster than before." Below this is a blue button that says "Create a free AI video". On the right, there is a large video player showing a woman's face with a play button. Below the video player, there is a text box with the following text: "English (US) - Professional C", "Hey! I'm Anna, and this is what an AI avatar looks and sounds like. Create a free AI video and see for yourself!", and "Close dialog". To the right of the video player, there is a grid of 12 small video thumbnails showing different AI avatars. Below the video player, there is a blue banner that says "Trusted by 12,000+ companies of all sizes". Below the banner, there are logos for Reuters, Teleperformance, WPP, Novo Nordisk, B/S/H/, and BBC. At the bottom, there is a blue button that says "See how it works".
