8 Google Chrome extensions that will save you hundreds of hours of your work (all free) :

1. Markup Hero

you can quickly take a (scrolling) screenshot of any Chrome tab, application window, or screen.

https://t.co/UsFw34ybf4

2. Scribehow

automatically creates a step-by-step guide with screenshots.

use Scribe to create SOPs, process maps, software documentation, and more.

https://t.co/0OJ5Uk0mrL

3. OneTab

Instead of having all of those tabs open, this Google Chrome extension puts them in a handy list in only one new tab page.

https://t.co/LA3Y7AVniS

4. Pocket

save all the content you want to read later through the Pocket extension icon and then share it later with friends across social networks from your inbox

https://t.co/Df9jtBpxbp

5. Grammarly

It takes spell check to another level because it’s able to check your spelling no matter what program you’re in, including Google Docs and WordPress

https://t.co/9n10zbYim0

6. Clockify

time-tracking app that allows you to accurately track your activity across apps and the web with a single click at the start of the day.
https://t.co/j397ZigblZ

7. Google keep

keeping all your data neatly organized. Its primary function is to help you take notes and create to-do lists, but you can also save images and pages and then add notes to them.

https://t.co/GIYIOupZip

8. Noisli

create background noise that you want to hear (it goes beyond just sea waves or coffee shops). It has different noise combinations for reading, writing, focusing, and more.
