6 websites that are so fantastic you'll wonder how they even exist (for developers):

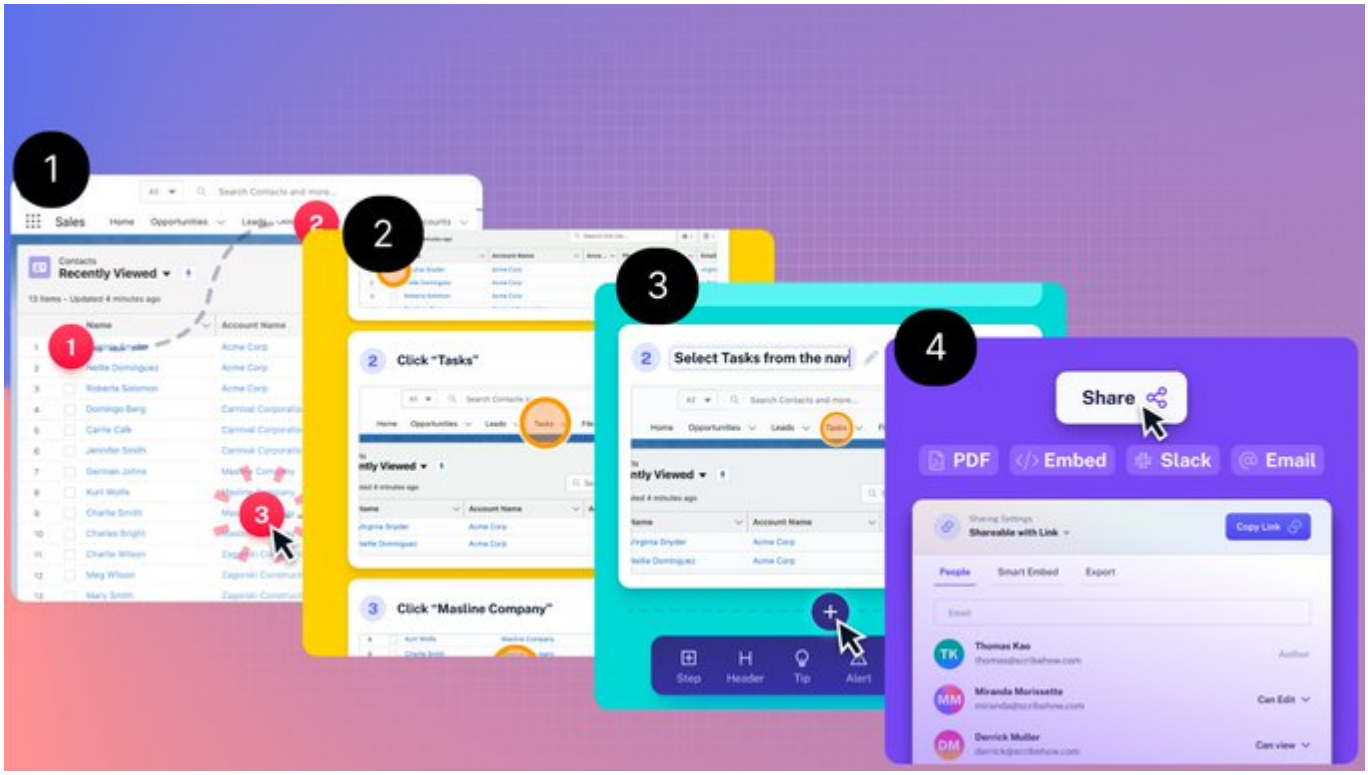

1. ScribeHow (@ScribeHow)

Turn any process into a step-by-step guide, instantly.

• Click record
• Do the thing you want to show someone (like how to reset a password)
• Get a beautiful auto-generated guide

No manual screenshots.

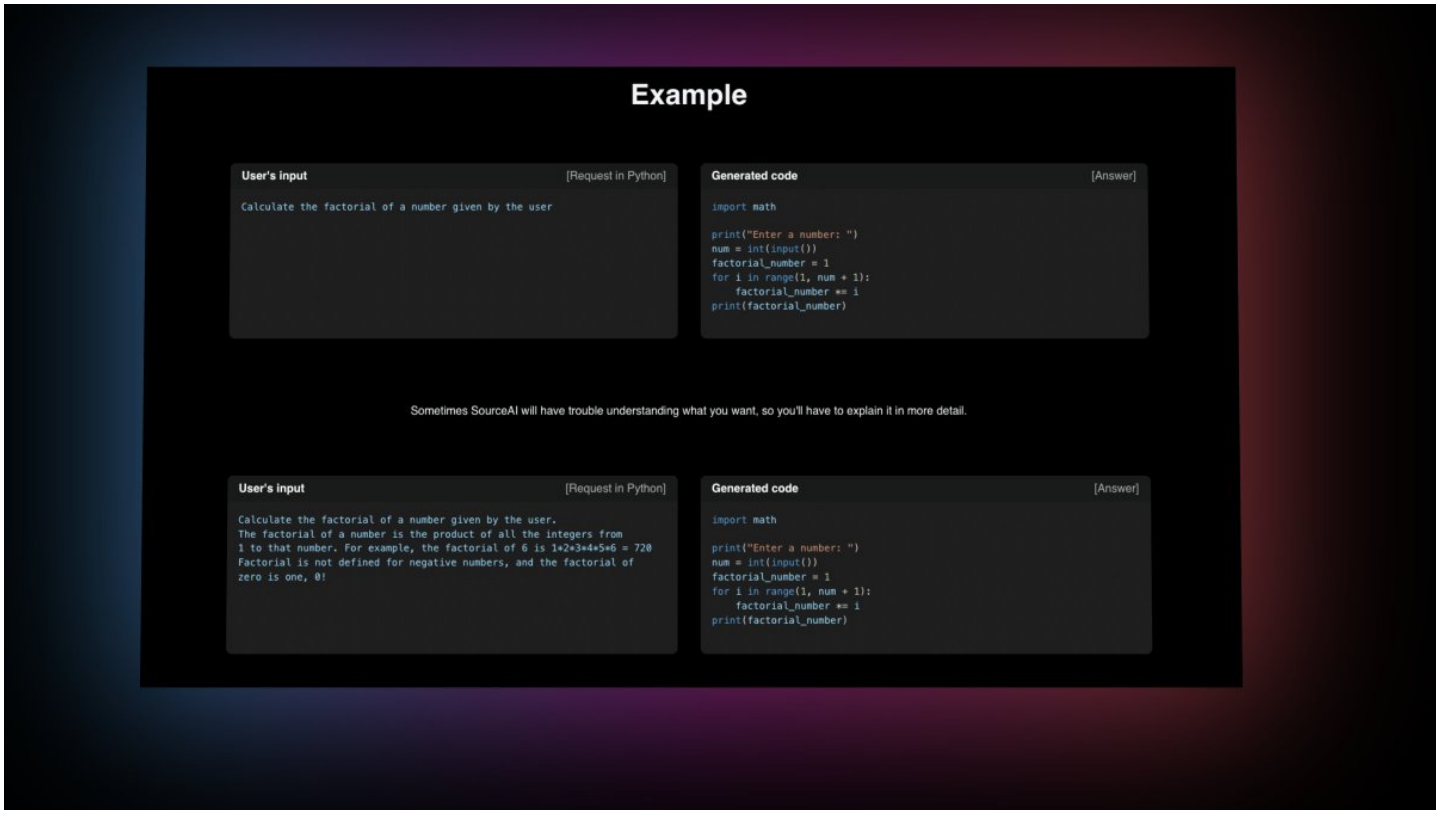

■ https://t.co/8EnpUIvIeR

2. SourceAI

Explain what you want in plain English, and AI will generate a code snippet for you.

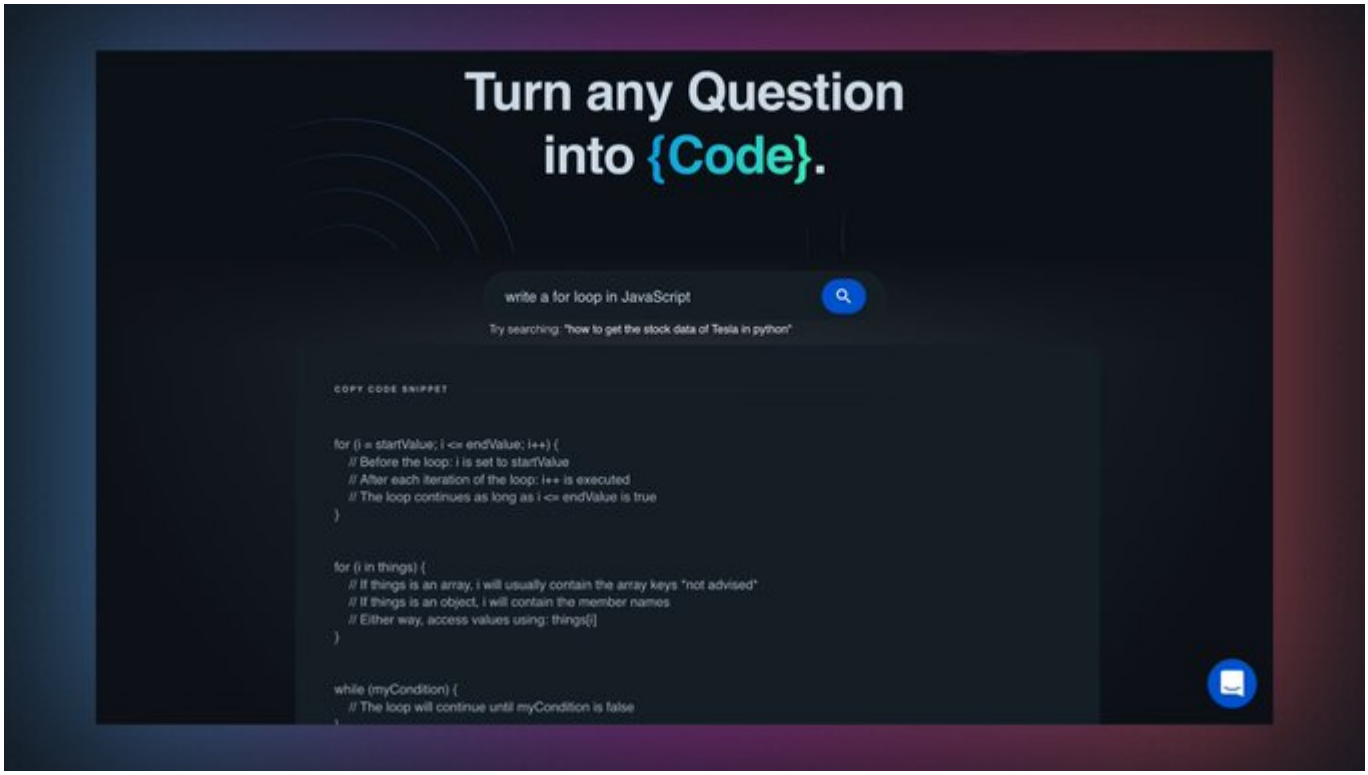

■ https://t.co/KFLbBBjllm

3. Blackbox

Turn any questions into a code snippet or extract a code snippet from a video.

■ https://t.co/6Z4fM5ieWn

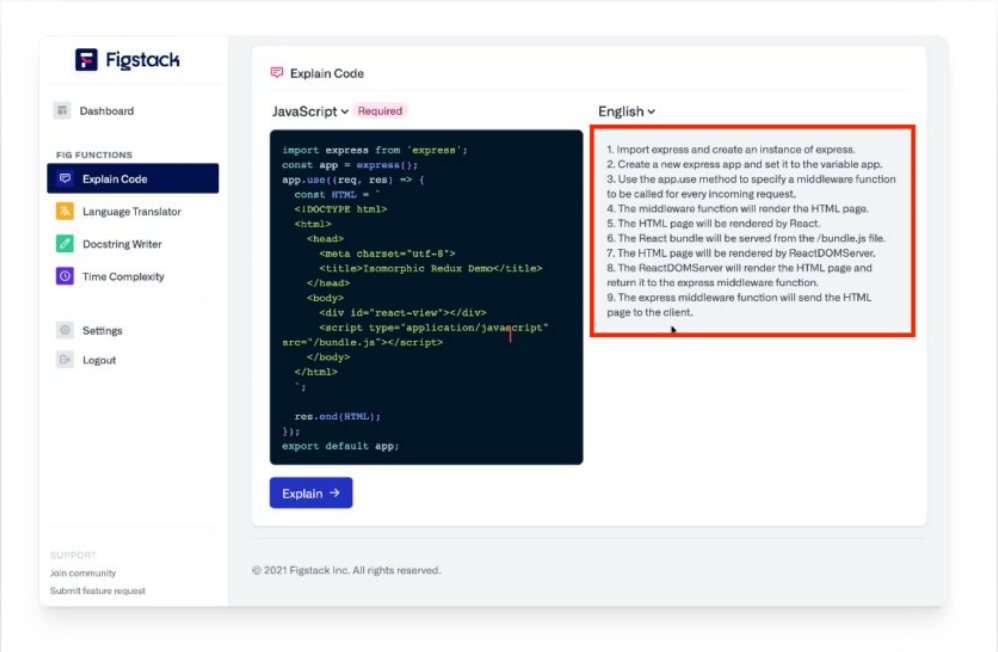

4. Figstack

One-stop for developers.

• Understand code in any programming language
• Translate programming languages
• Automate documentation for your functions
• Get the time complexity of your program

■ https://t.co/koY4cmciR3

5. Oh shit, Git!

Bad situations and often mistakes that we make while working with Git. You'll probably find your answer here.

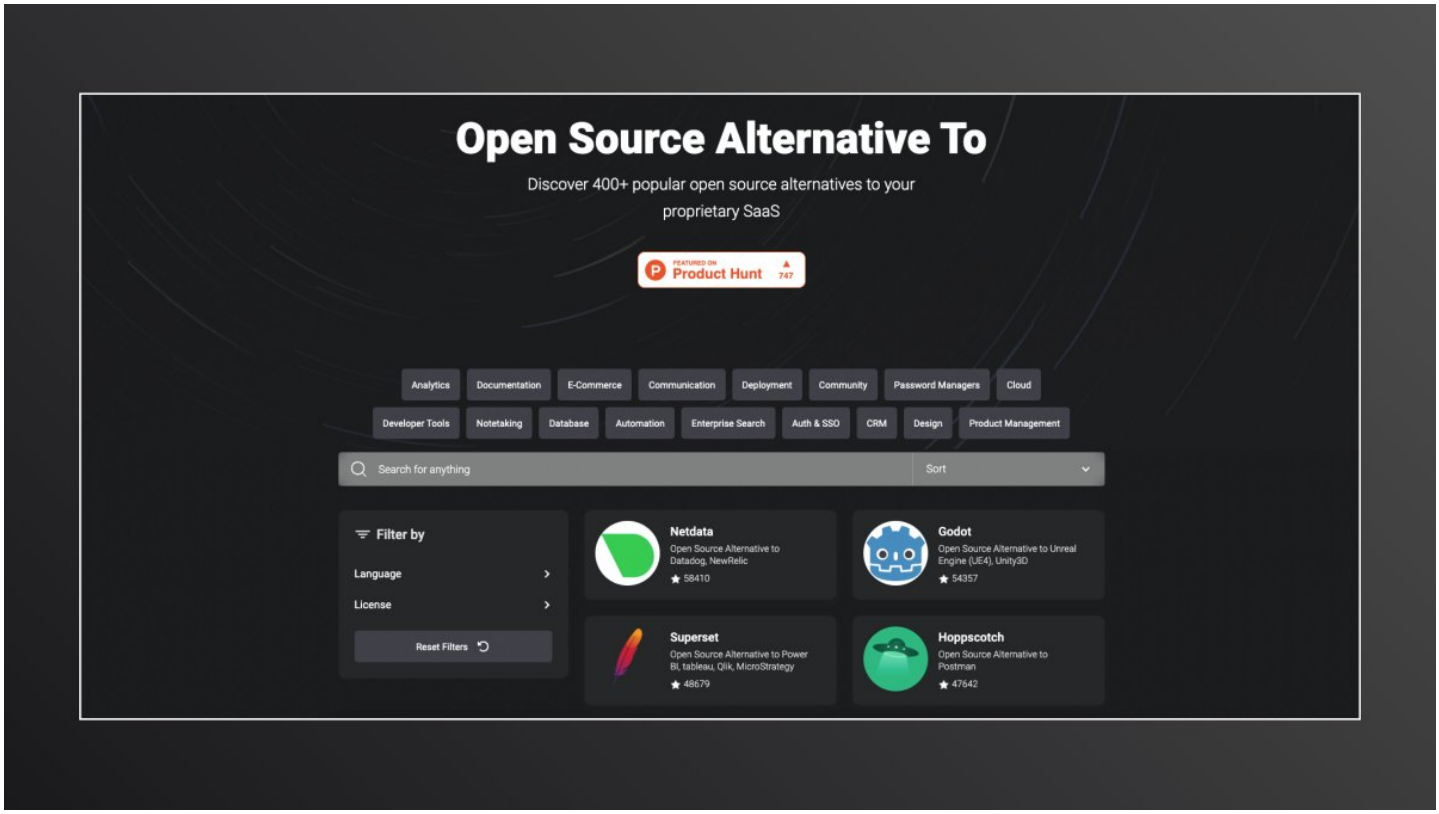

■ https://t.co/cMTOJRVO3Q

6. Open Source Alternative to

Open source alternatives to some popular tools.

■ https://t.co/b6lOWEObyf

That's pretty much it!

You can check out my other threads at @Prathkum. I generally write about web development. ■
