2/20

You can add financials from many fundamental criteria's like
■ Cashflows
■ Income Statements
■ Balance sheets
■ PE,PB ratios
■ Marketcapitlization
■ Statistics
3/20

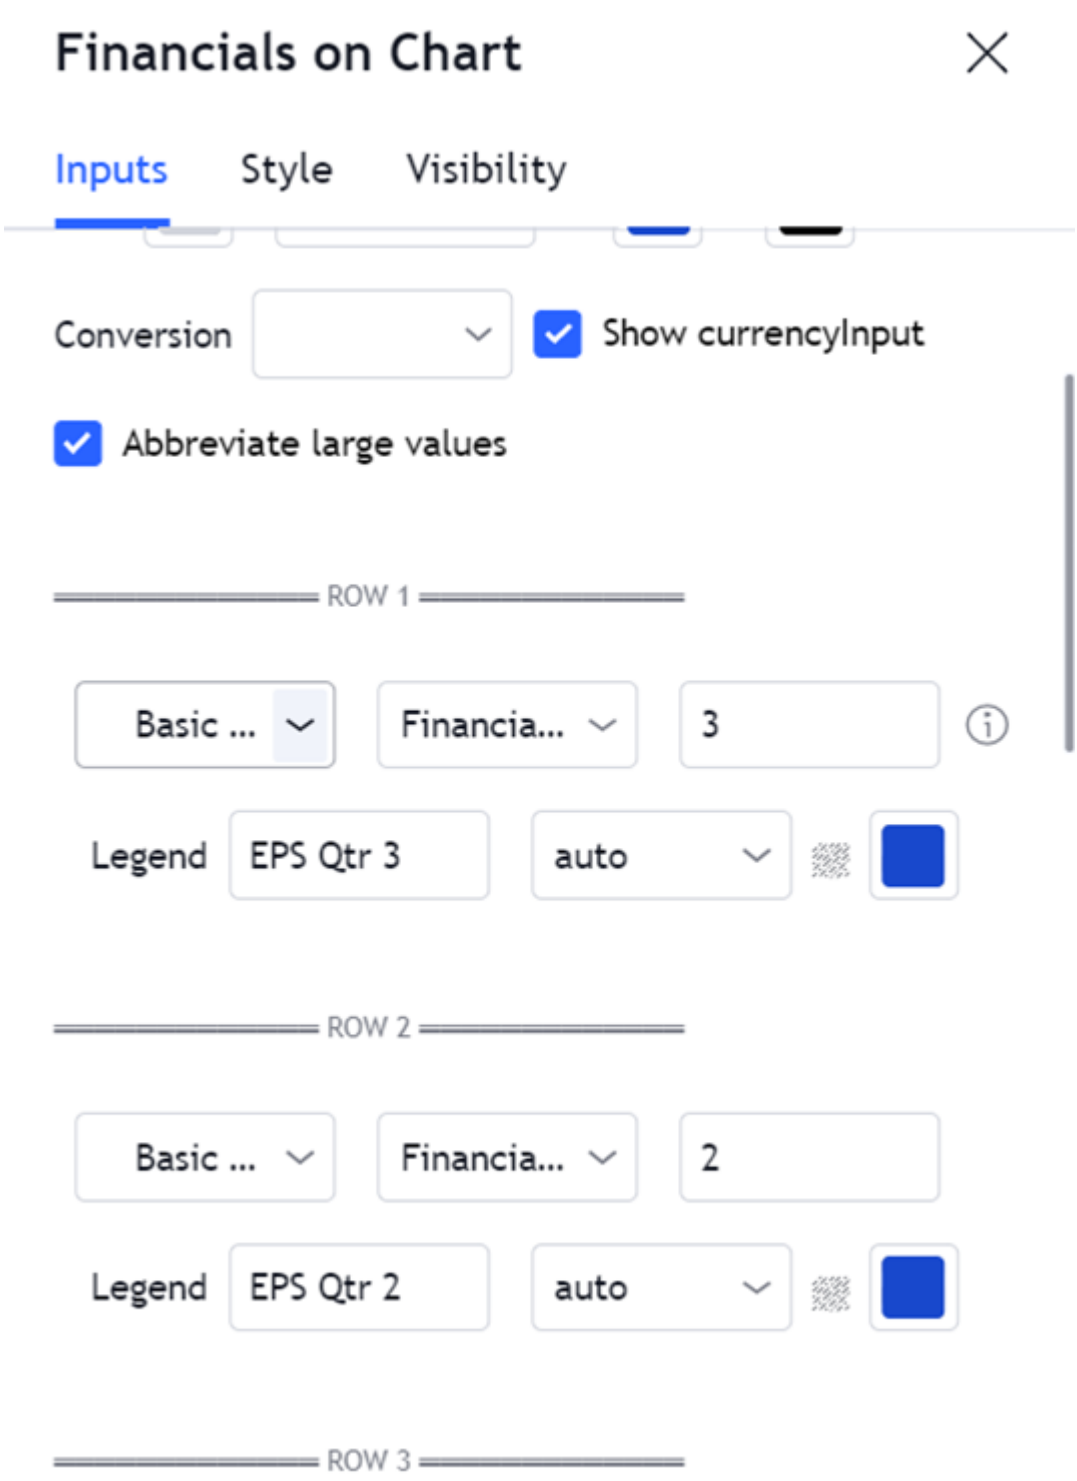

How to change Settings:

■ There are 8 columns you can basically select any financial you want

■ You can select quarterly or Yearly values and can also write

■ The names of the financiaLS Example : EPS Qtr3

■ You can Change colours , font size

■. ■■■■■■■■■■ ■■■■■■■■

You cannot track each and every indicator like (■■■■■■■ ■■■■■ , ■■■■ , ■■■■■) etc , you can use plot this custom strategy to understand whether the trend is positive or negative of those indicators

■ Link https://t.co/FwQkQDFczC

■ Click on the above link -> Add to Favourites -> Add on Chart from favourites and start using it !

6/20

■■■■■-■■■■ ■■■■■ ■■■■■■■■■■ ■■■■■■■■■

■ You can change the weightage of the indicators like 50-50 for MAs and Oscillator or 70-30

■ You can select different TF from chart to do MTF analysis

■ Change the colour of bullish and bearish signals

7/20

3. ■■■■ ■■■■■■ ■■■■■

■ You want to calculate the returns of stock say over 10 Years how much CAGR returns it has given , this is the indicator

■ https://t.co/i92ISnJPZi

■ Just select 2 time periods and it will automatically calculate the CAGR .

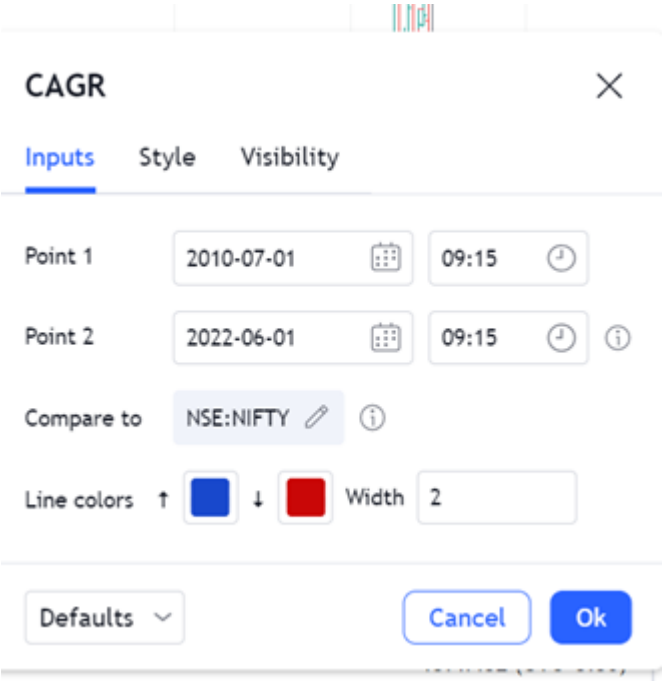

8/20

■ You can even compare 2 returns over the same period Example : ■■■■■ ■■ ■■■■■

■ Select 2 points you want to calculate CAGR and if you wish to compare it with any asset then can use

■ Compare to “ and select the symbol like nifty , Gold or Nasdaq

9/20

I share BANKNIFTY Stratgies Free of cost in my telegram Join Now : https://t.co/ou8O5v0oPe

■. ■■■ ■■■■■■■■■■ !

■ Tired of people copying or stealing your charts

■ Use this watermark indicator where you can add your names or brand name anywhere in your chart
