5 Intraday Long Strategies that works

Will add value to your cash trading style

A thread ■■

Kindly Re-Tweet for Max Reach

1) Long Condition

- Long in consolidation phase after Pump Wave 1
- Look at the Adani Ent Chart -
- Long when it breaks consolidation phase after pump

■ Good Success Rate

2) First Big Candle Signal

Look at the Reliance Chart

- First Big Candle is always a good signal
- Long above high with SL below candle
- Consolidation near high of candle another good sign

■ Good long trading setup and success rate

3) Gainer Bounce from VWAP

- When top gainer stock bounce from VWAP

Long don't fear, its the trend that will make money

4) Gainer EMA Confluence

- Look at this Bajaj Fin Serve Chart

- Box shows the EMA Confluence
- Must be a gainer stock on that day
- Its the trend that make money

5) Big Candles or Breakout -

- Big Candles are trend setters
- Whenever you see breakout big candle
- Join the trend risking a small capital

Look at this Maruti chart -

Orange Box is Breakout

If SL hit it takes small loss and if works give you double at least.
