9 AI tools so useful it feels like you have your own team of interns.

1. @supernormalapp

Takes detailed notes and transcribes meetings without you lifting a finger.

https://t.co/S3LTggnjyF

- Connect your GMeet/Zoom account
- It takes notes for you

@supernormalapp 2. ChatGPT by @OpenAI

AI bot capable of generating impressively detailed human-like responses for your questions.

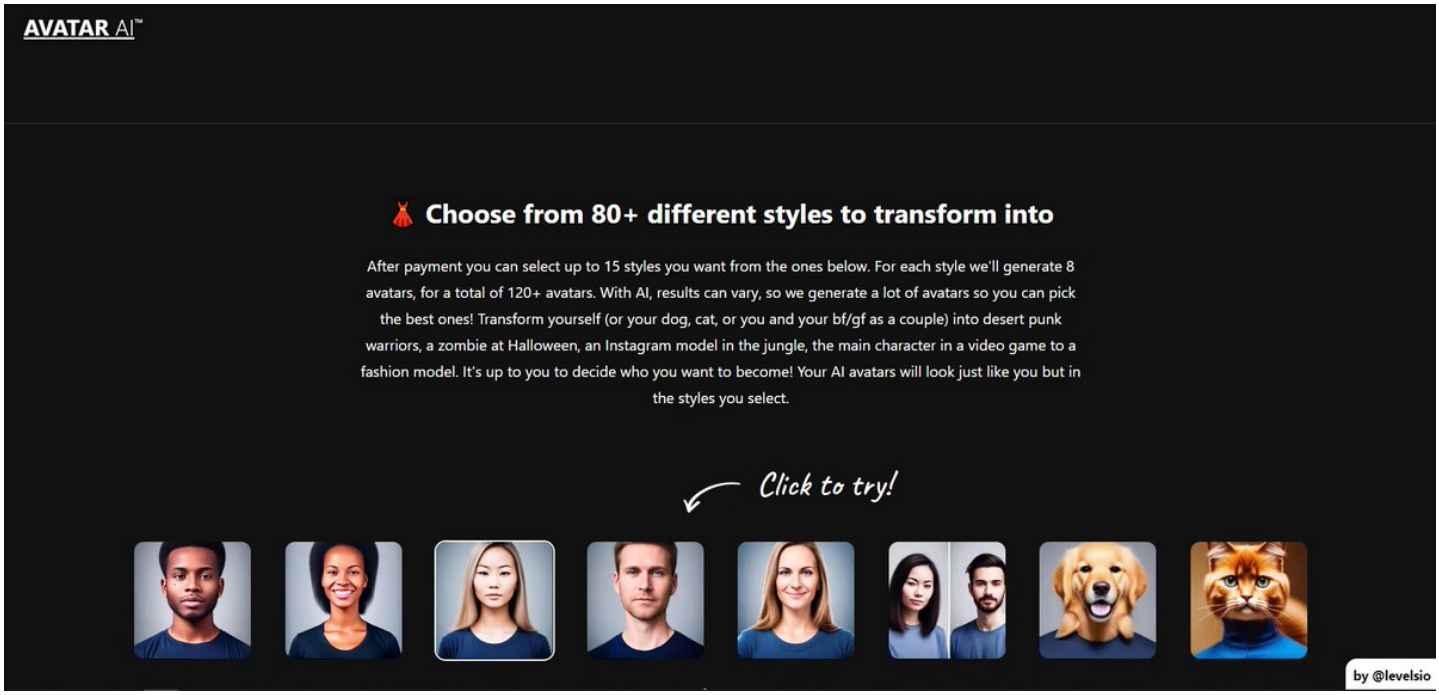

https://t.co/o3NhmvOPnN

My friend here used it to understand Docker in Eminem style
https://t.co/1TOS2CrWfu

@supernormalapp @OpenAI 3. AI Avatars

https://t.co/U5dAjo83wn by @dannypostmaa
https://t.co/H1tpIxYsui by @levelsio

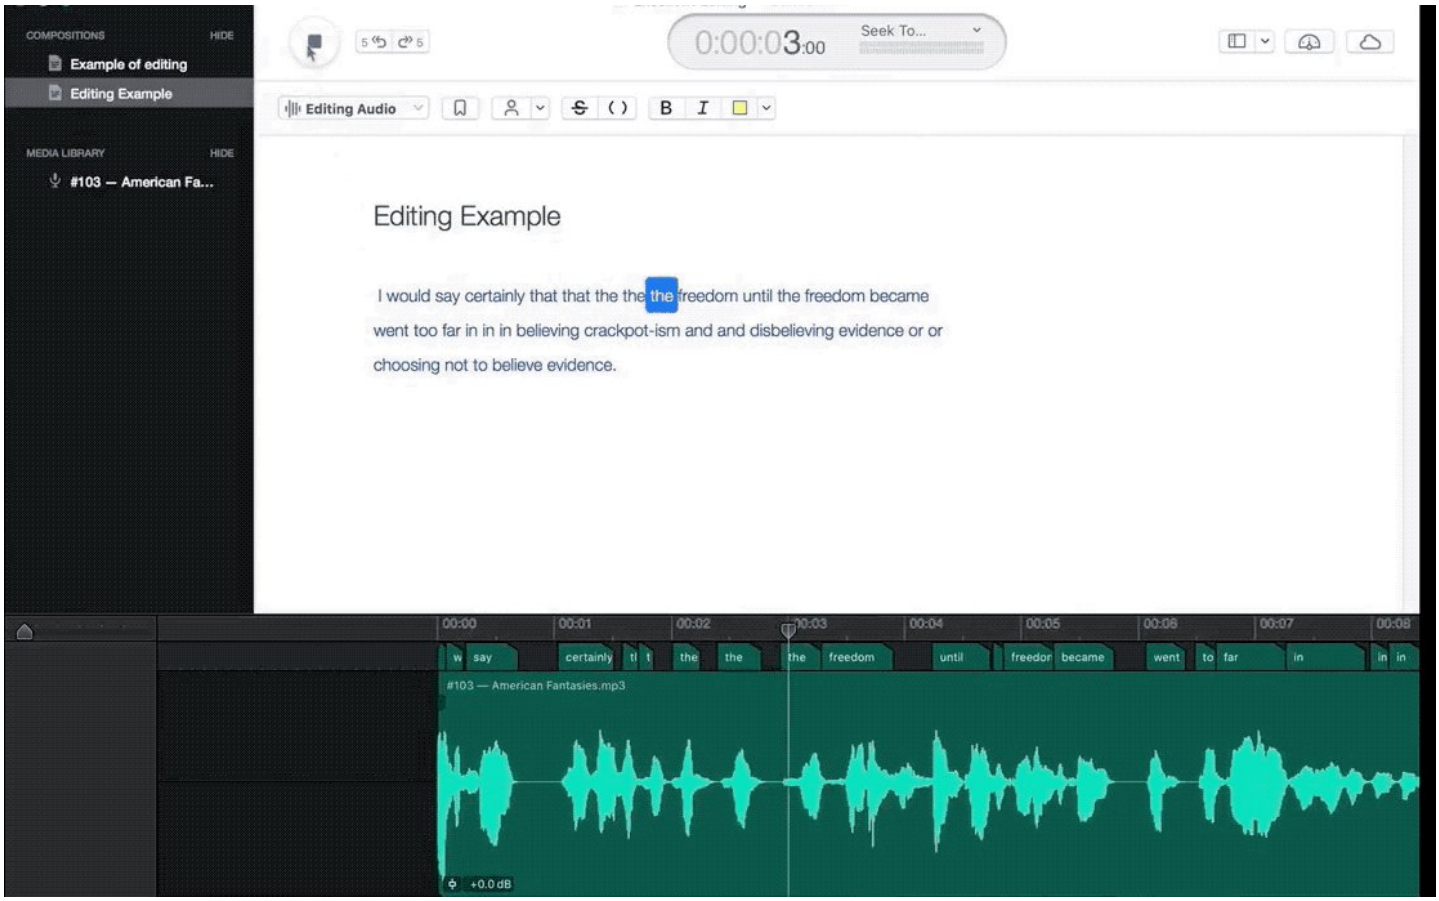

Create your own 4k quality AI-generated avatars in seconds.

@supernormalapp @OpenAI @dannypostmaa @levelsio 4. Descript App

Edit your podcast by just editing the transcript. Sound editing like editing a word doc.

Descript will copy your voice and autofill whatever edits you make to the transcript.

@supernormalapp @OpenAI @dannypostmaa @levelsio 5. Magic Studio

Edit out parts of photos you don't need
- Upload the photo
- Select the part you don't want
- Press erase

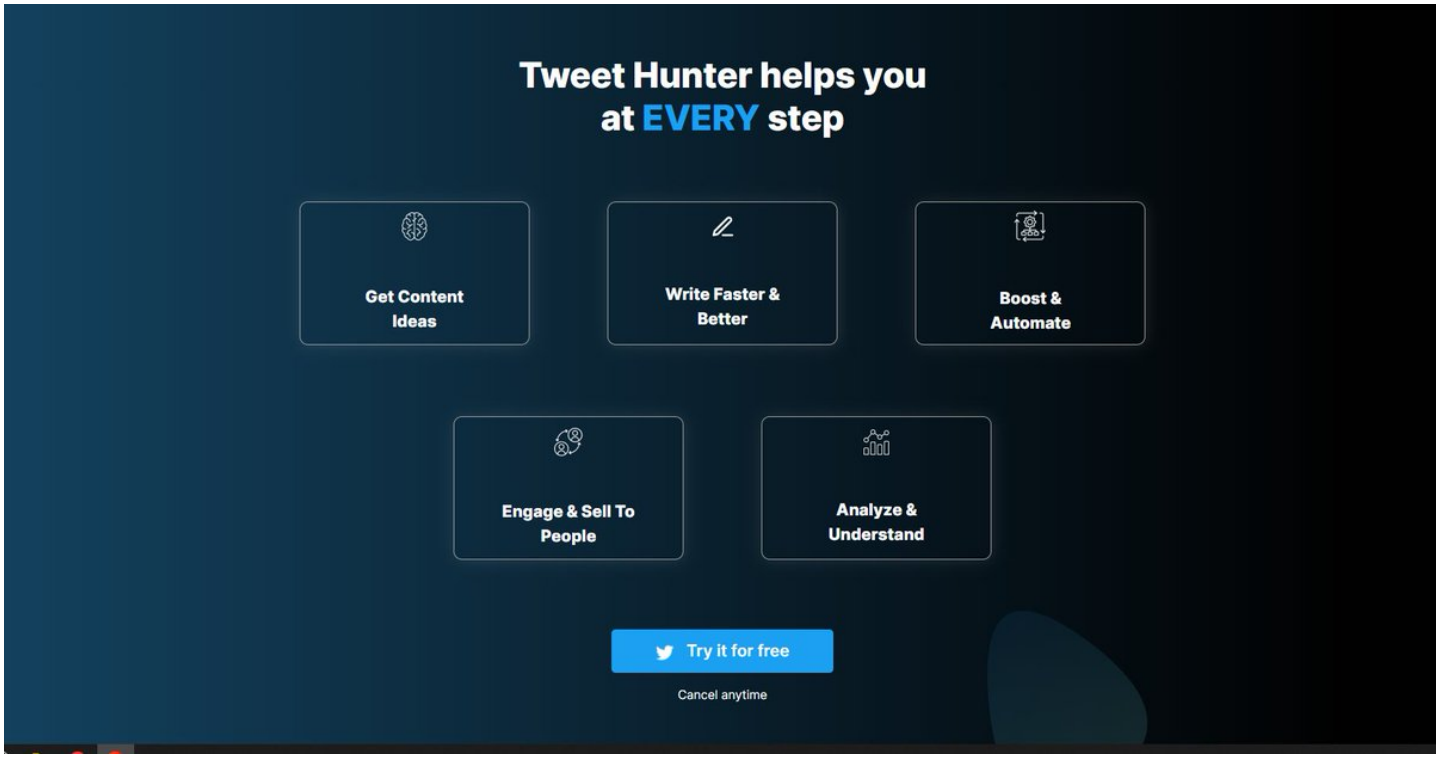

https://t.co/j7Lr2d2zBt

@supernormalapp @OpenAI @dannypostmaa @levelsio 6. Tweet Hunter (■)

- Find new tweet inspiration
- Generate thread starters
- Rewrite your content with AI

https://t.co/IOZfSnwglb

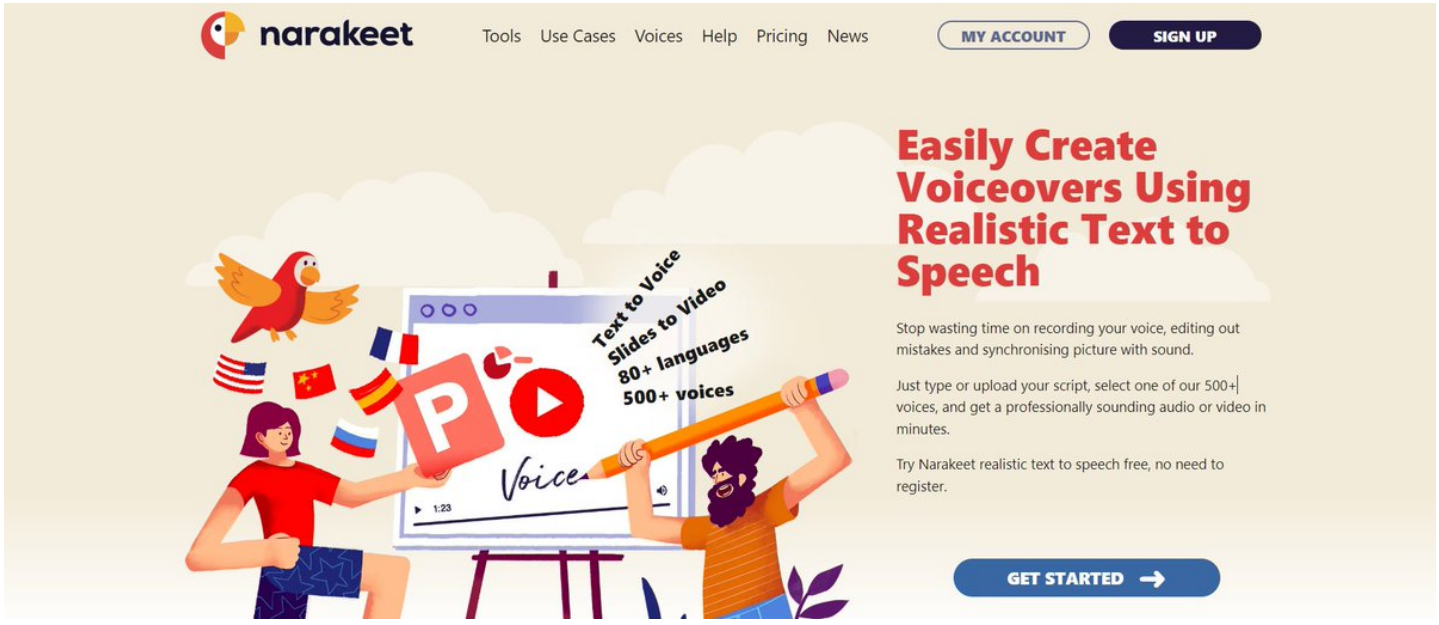

@supernormalapp @OpenAI @dannypostmaa @levelsio 7. Narakeet

Create realistic voiceovers for your videos

https://t.co/oWZMIxtUDl

- Upload script
- Select Voice
- Get professional audio & video in minutes.

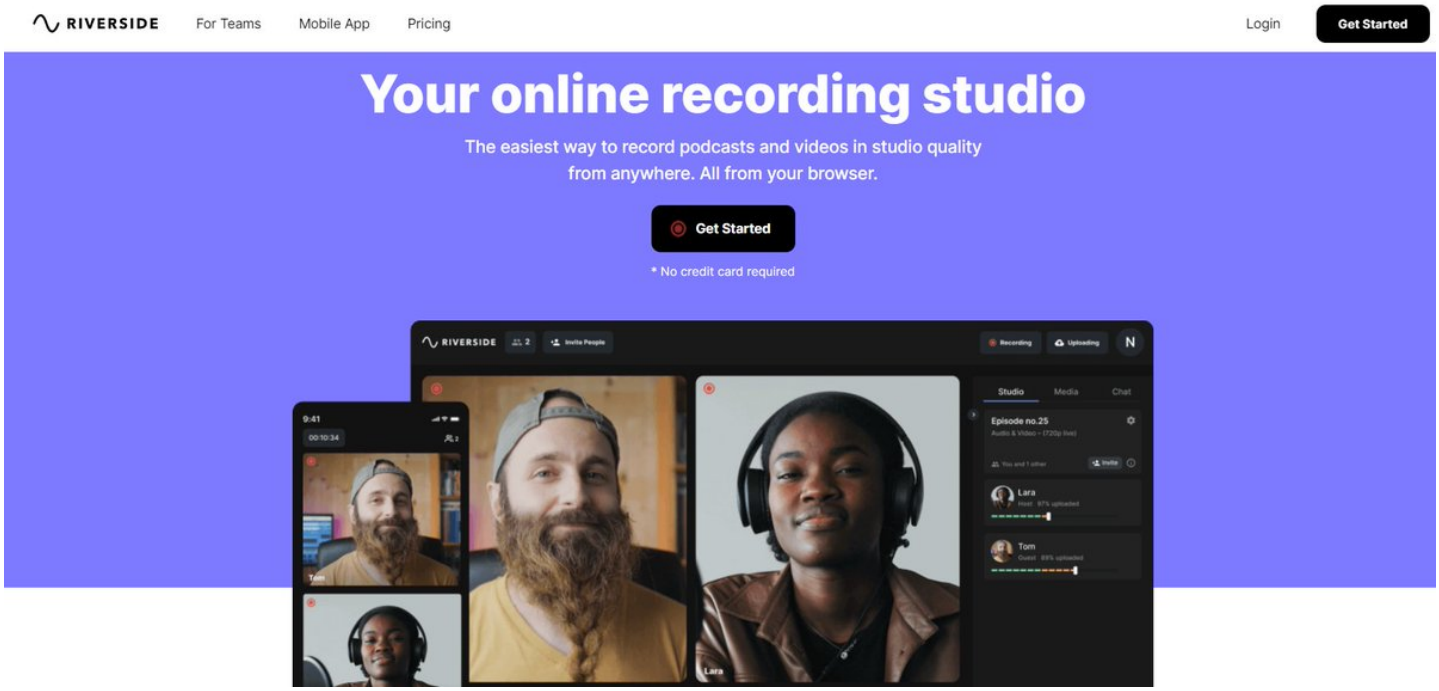

@supernormalapp @OpenAI @dannypostmaa @levelsio 8. Riverside

Records your podcast locally, uses AI to keep the right speaker in view, mute unnecessary sounds and produces

studio-quality podcasts for you.

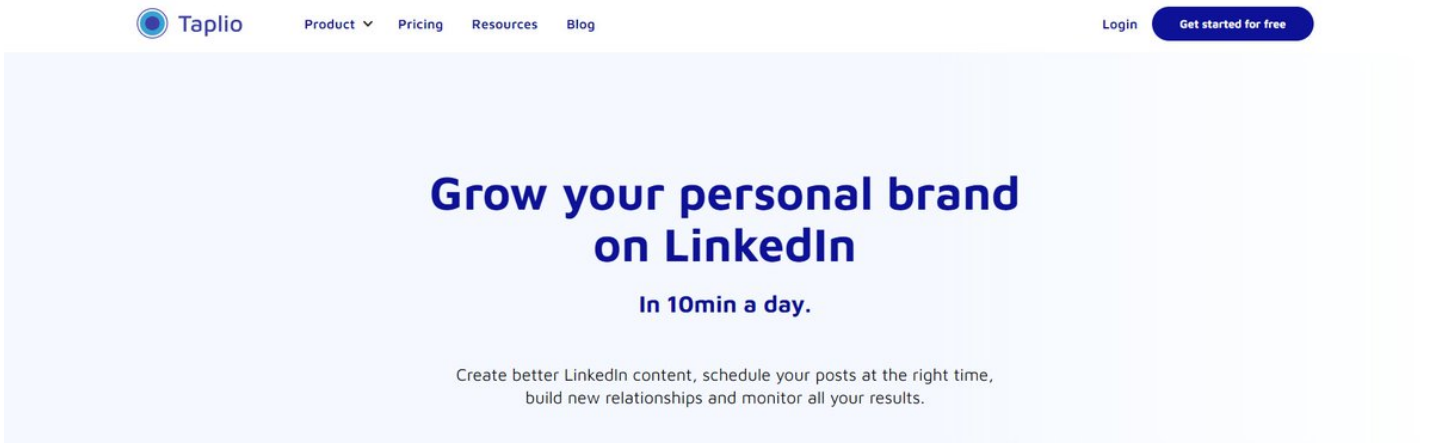

https://t.co/YrWb32KiMX

@supernormalapp @OpenAI @dannypostmaa @levelsio 9. Taplio

Generate post ideas using AI, Schedule, Analyze Performance and build your audience.

https://t.co/eyws4eabt1
