#FranklinTempleton - Investors seem to be divided into 2 camps
1) Vote YES to avoid a fire sale
2) Vote NO because @FTIIndia is a fraudster and has mismanaged funds

The people who are supporting the windup are worried because if funds open then predicting who will get what is impossible.

#FranklinTempleton - and that is True. When funds open we don't know how many investors have online access to redeem, how many will start redeeming, what algorithm does FT have to prioritize redemptions, what system errors will happen due to high traffic.
