Il a contracté de la fièvre et ressenti des courbatures qui l'ont cloué au lit pendant trois jours sans pouvoir s'entraîner. A l'époque, il pense avoir attrapé un coup de froid.

18. Mais la donne a changé quelques semaines plus tard quand la Chine a commencé à communiquer sur la maladie. "Sur leur groupe WhatsApp, les sportifs français s'interrogent. Ils se sont demandés s'ils n'avaient pas été eux-mêmes contaminés. Problème: aucun n'a été testé.

1. Reports of military athletes from different countries who claimed to have had Covid-19 symptoms during or after the Wuhan Military Games

2. Refusal by national MODs to test for antibodies

3. 6 Spanish athletes tested positive for Sars-Cov-2 antibodies

22. Conclusion: They Lied We Died!

2. The refusal of most national MODs to investigate is suspicious!
