If you work at one of these companies, I have two requests for you today. The first is to go in on Monday, speak with your coworkers, and together demand that this political giving stop. It doesn't reflect your values, it isn't necessary, and it's done in your name. Resist it.

My second request is that you take a portion of your very big tech paycheck and give it to 13 House candidates who refuse to take corporate money, from your employer or anyone else, and who will reform this corrupt and shameful system once and for all. https://t.co/axizk6LVlb
