**Schumer droning on about Kavanaugh's 'temperment'.**

**Well screw you, Schumer. You and your goon of a party smeared an innocent man as a sexual predator, delayed his being able to defend himself for 10 days, then tried to gaslight the entire country "LOOK LOOK HOW ANGRY HE IS!"**

Understand what you are about to see here: A Progressive Democrat strategy lasting over 40 years to avoid having to convince voters to go along with their anti-American agenda thru bypassing Congress & using activist judges to implement their goals is about to DIE.

Remember this day. Remember the last 2 weeks, when the Democratic Party dropped it's mask and showed you it's true, awful face, the face of totalitarian dictators who would strip due process & presumption of innocence from their political adversaries.

The unhinged insane political Left just helped put a Justice on the Supreme Court who understands now PERSONALLY better than any other justice just how vital due process & presumption of innocence are to America's constitutional system.
