LOL ok let's see a show of hands. Who *really believes* this meeting on board Air Force One between President Donald J. Trump and Deputy AG Rod Rosenstein was about *Rosenstein begging Trump for his job*?

This was a high level briefing to the President by the guy *directly in charge* of handling the declassifying/unredacting of all the DOJ/FBI #SpyGate documents.

But the NYT's was leaked a cover story abour RR plotting to get Trump impeached by using the 25th Amendment.

Trump's already given the order that this must happen. So this was RR briefing Trump just before the documents start being rolled out with 28 days to go until the Nov. 6 midterm elections.
