**THE GRAND STELLIUM IN CAPRICORN -What is going to happen on 11th February, 2021**

**1/n**

**If you are thinking that 2020 was the year of major shifts, then you are quite wrong. Year 2021 will be equally surprising or it can even surprise us more! A rare event in cosmos is**

2/n

about to shake the world on 11th Feb, 2021. This time a stellium of 6 planets i.e., #Jupiter, #Saturn, #Moon, #Sun, #Venus & #Mercury will occupy the sign of #Capricorn. Imagine the level of energy created by 6 planets in Capricorn. Well, this

conjunction can be labelled

3/n
as rarest event which can bring many political and social changes throughout the world. I want to bring one thing into your notice that 5 planets gathered in the sign of Sagittarius on 26th December, 2019.
This led to the outbreak of the pandemic COVID-19 in the world.

4/n
At that time, negative energy was manifested as the nodes were directly involved and there was a solar eclipse in Sagittarius too. This stellium in Capricorn will also be aspected by Rahu from Taurus. So, the effect of nodes can also be felt during this stellium. Now, let's

5/n
understand this stellium step by step. In order to understand this conjunction, we need to first understand the Capricorn sign. The natural 10th house of zodiac, Capricorn is ruled by Saturn. As Saturn will also be present in the sign itself during this stellium,you can

6/n
expect very prominent results. The sign of Capricorn is the house of karmas, power & authority. Many people recognize it only as house of profession. However, it shows all the karmas one has capability to do in this lifetime. Therefore, this house is of supreme importance.

7/n

It houses 3 nakshatras -Uttarashada, Shravana and Dhanishta.The nakshatra of Uttarashada is ruled by sun and its 3 padas are placed in the Capricorn sign. The nakshatra of Shravana which has blessings of Lord Vishnu and ruled by moon has all padas in this sign.

8/n

The last nakshatra is Dhanishta, a major nakshatra bestowing prosperity has 2 padas in this sign. All these 3 nakshatras are very powerful and can produce strong results when planets co-join each other. The results will be majorly in karmic sense influencing your profession,

9/n
honor in society, achievements & support of government.

Effects on world:
However, apart from this, there might be many repercussions on the global level. There will be big shifts in the power centers all around the world. New super powers will start emerging leaving behind

10/n
the developed countries. New strategic friendships will take place and old ties may get abandoned.

Effects on India:

#India has a #taurus ascendant chart so the #stellium is taking place in 9th house. This #grandconjunction of planets will directly aspect the 3rd house of

11/n

the chart. The 3rd house is the house of neighbors and therefore, the relationship with the neighboring countries will be under severe stress. There might be clashes between India and Pakistan or India and China. During this time, India might also suffer from communal

12/n

clashes due to enigmatic positions of Rahu and Ketu.But as the stellium is taking place in 9th house, there is an opportunity to flourish and grow under severe stress too. The country will formulate policies to fightback financial and economic ruckus. In 2019, the stellium

13/n

took place in Sagittarius which is 8th house of India's foundational chart. Therefore, it resulted in widespread destruction, collapse of economy and domestic disturbances. Now we have to see that how the energies play out this time.

14/n

What's the best remedy for this stellium?
The most important remedy for sailing safely through this stellium is embracing practicality.
As Saturn, the lord of Capricorn is in the sign itself, you have to be practical regarding life. Imaginations will not work rather

15/n

adopting to the ground level reality will move mountains. Also, Capricorn wants you to work hard. So you need to toil hard and also exercise preservance. Be patient and don't rush over things for results. Saturn loves the saying of slow and steady wins the race. Take small

16/n

steps daily but take steady steps. Steadiness will deepen your foundations and will connect to your roots. This stellium has a hidden message from the cosmos.
When the pandemic started, the mula energy was much prevalent with a major eclipse in mula nakshatra. No doubt, we

17/n

humans have touched the sky but forgot our roots. There is again a message to go slow with patience but make a tremendous effect with each step. So, the choice is yours now. We all have free-will to contemplate & take our decisions within the limits of our Prarabhda karma.

18/n

So, take a step today!

If you are facing any issues in your life regarding health, career and relationships, you can take personalized consultation

from us. Divine guidance from our mentor Pt. Gajanan Krishna Ji Maharaj has helped lakhs of people all across the globe

19/n
regarding many karmic issues which were disturbing the bliss in the present lifetime. We are experts in karmic healing through Vedic remedies and mediation practices. You can contact us through WhatsApp at 9966667290 or email at gajanankrishnamaharaj@gmail.com
