Introducing SocialChat! A simple chat widget you can add to your website to start conversations and keep them going on social. It's the easiest way to have ongoing chats with your website visitors.

Step 1: Go to https://t.co/ccDvsAMp7R and customize the appearance of your free chat widget. Then copy (ctrl + c) your custom embed code to your clipboard! ■■

Step 2: Paste the embed code into your website before the closing tag (…or ask your website developer to do it for you.) ■

Step 3: You're ready to chat with website visitors through Facebook Messenger or Twitter DMs. It's that easy! ■
