1/n My thread on Y d 12 #Jyotirlingas in India hv bn positioned in a progressive spiral.If u draw a line over d Jyotirlinga temples on map then d final result is d shape of a conch shell or d #Fibonacci pattern. They say, this pattern is nature's secret code.Pic credit: Unknown

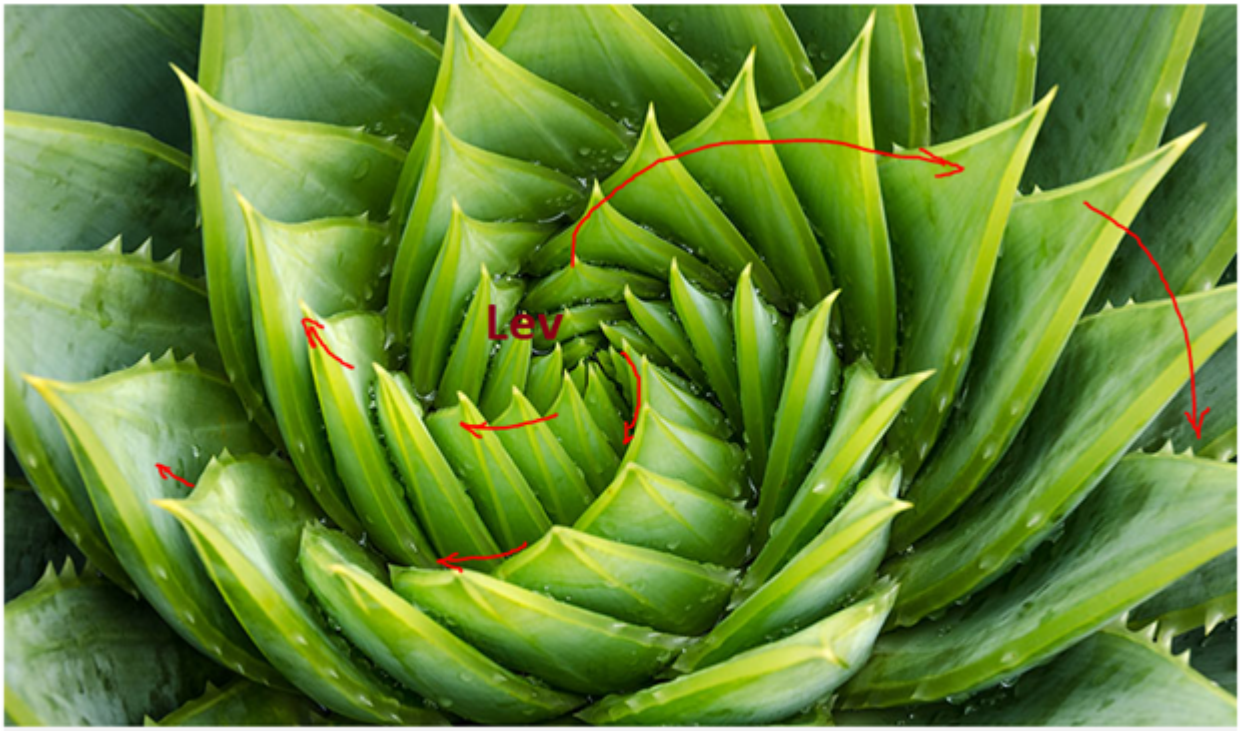

@DetheEshaSen @Defence_360 @meghdootindia @megirish2001 @CantstopulovinM @sanjeevsanyal @LostTemple7 @ToTheePoint @iamshinerk @davidfrawleyved 2/n So wat r Fibonacci numbers? A series of numbers in which each

number is d sum of d two preceding number--1,1,2,3,5,8...Next number in d series will b 5+8 and so on. U cn continue adding number in this series till infinity. This mathematical pattern is represented as a spiral.

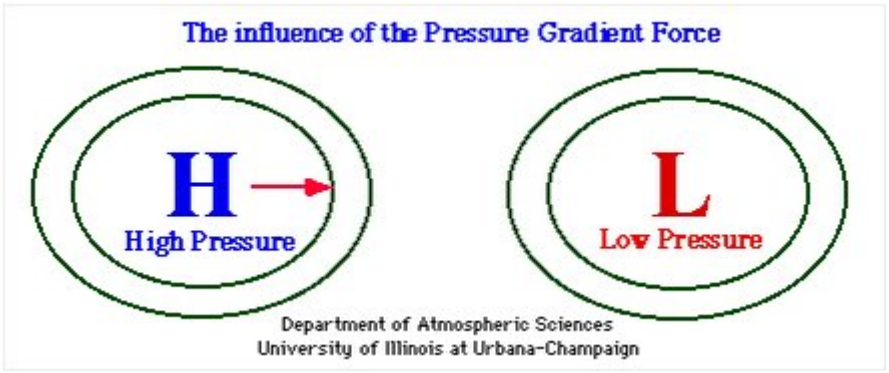

@DetheEshaSen @Defence_360 @meghdootindia @megirish2001 @CantstopulovinM @sanjeevsanyal @LostTemple7 @ToTheePoint @iamshinerk @davidfrawleyved 3/n In nature Fibonacci series r found everywhere. In the arrangement of sunflower seeds, pine cones,web of spider and also in d shape of conch shell. This is Aloe vera (original pic credit: shutterstock)

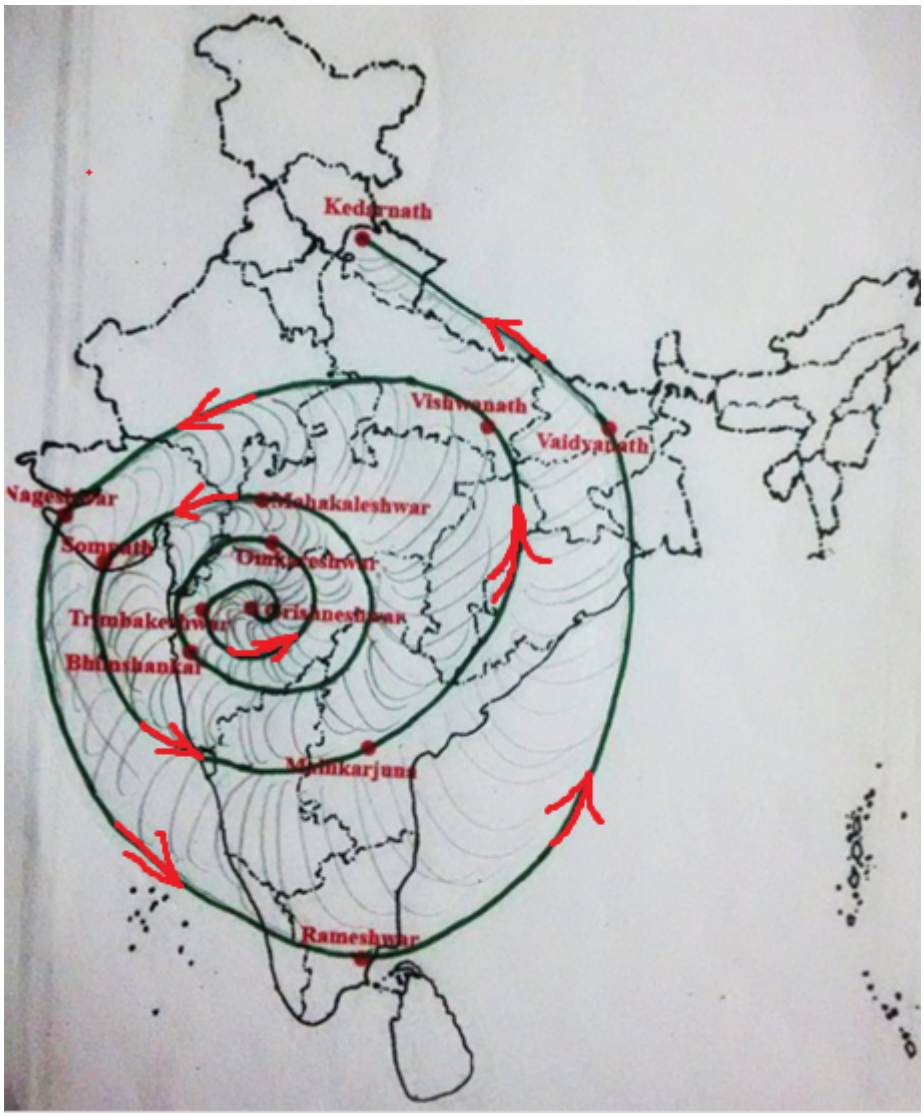

Aloe polyphylla. Credit: Shutterstock

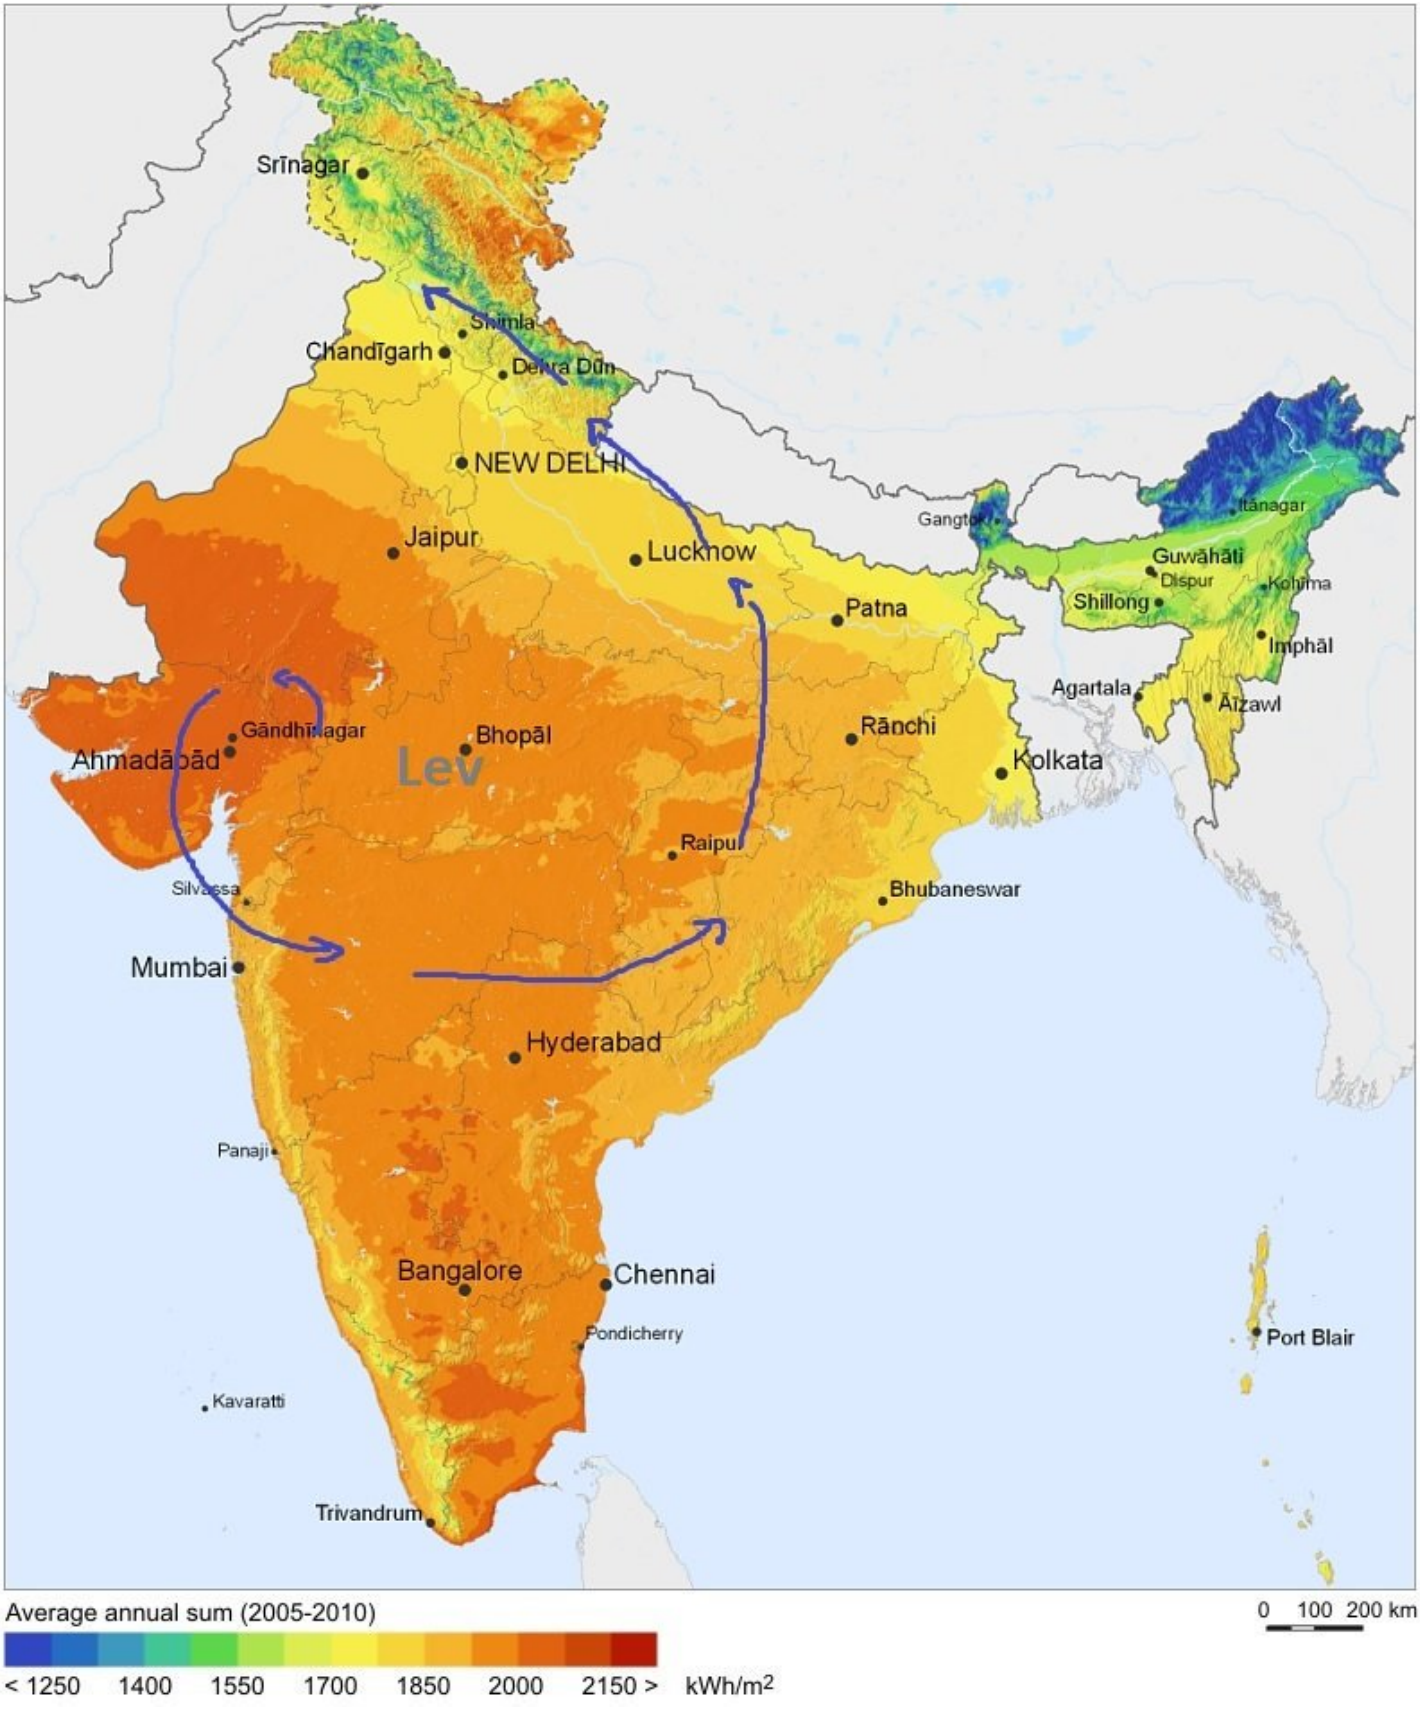

@DetheEshaSen @Defence_360 @meghdootindia @megirish2001 @CantstopulovinM @sanjeevsanyal @LostTemple7 @ToTheePoint @iamshinerk @davidfrawleyved 4/n Bck to y Jyotirlingas r positioned in a progressive spiral? Law of energy states--Energy always balances itself. Energy flows from a point where it is concentrated to d colder universe. This is exactly d reason why air flows from a region of high pressure to low pressure.

@DetheEshaSen @Defence_360 @meghdootindia @megirish2001 @CantstopulovinM @sanjeevsanyal @LostTemple7 @ToTheePoint @iamshinerk @davidfrawleyved 5/n Tk a look at d 1st pic of India's map once more. Arrows show d flow of life energy. It's believed that Lord Shiva appeared at d 12 Jyotirlingas as a column of fire. To a person who hs attained a certain degree of spirituality sees these lingas as columns of fire piercing...

@DetheEshaSen @Defence_360 @meghdootindia @megirish2001 @CantstopulovinM @sanjeevsanyal @LostTemple7 @ToTheePoint @iamshinerk @davidfrawleyved 6/n piercing through the earth. Now let me show u d solar irradiation map of India. Rings a bell? The little deviations cld be bcoz Jyotirlingas hv been on earth since very very long. I can not exactly point to d form of energy which flows from one linga to d other bt ...

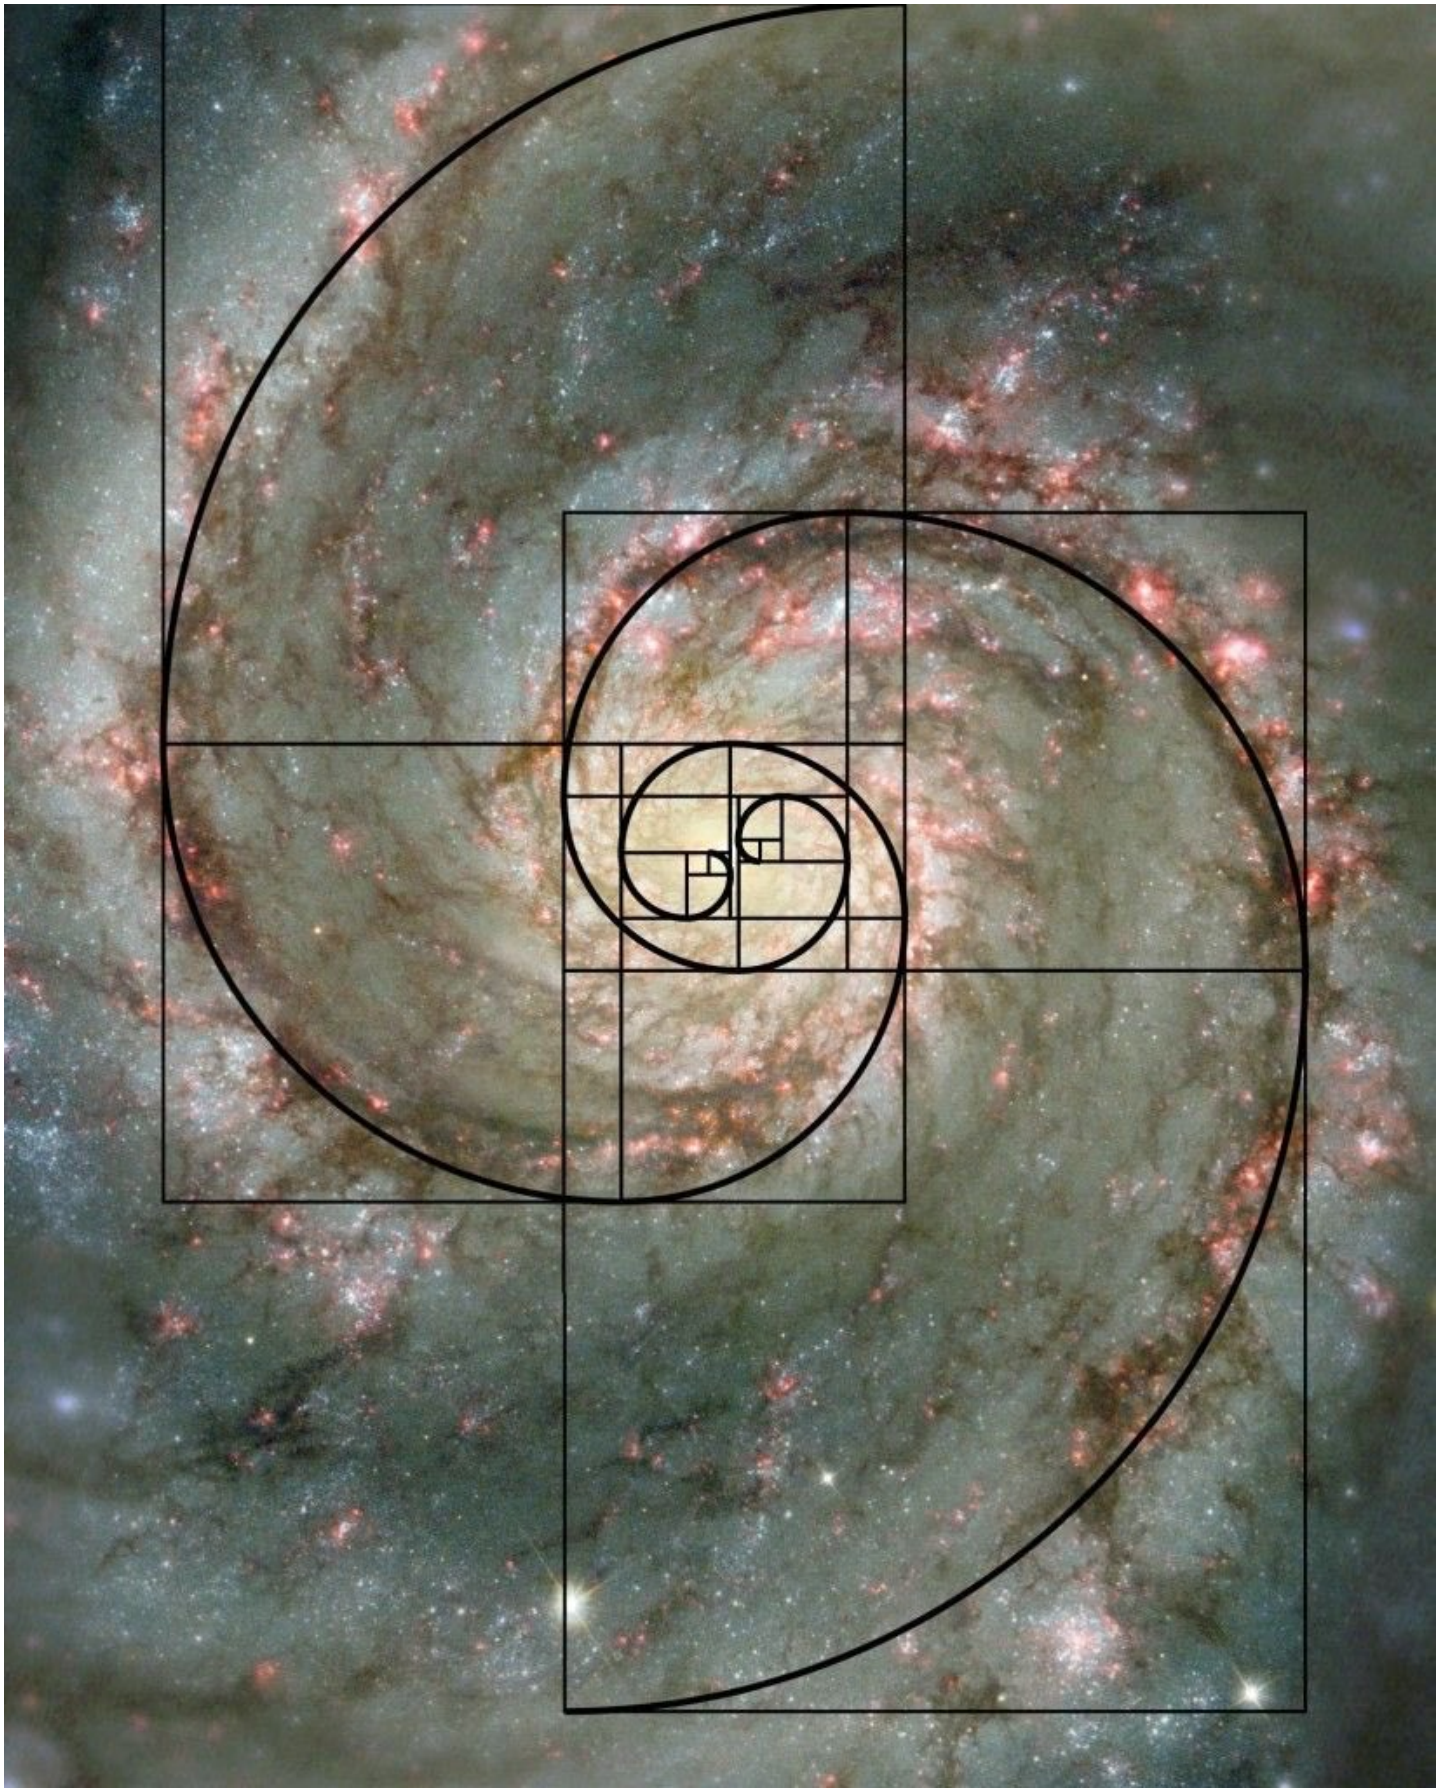

@DetheEshaSen @Defence_360 @meghdootindia @megirish2001 @CantstopulovinM @sanjeevsanyal @LostTemple7 @ToTheePoint @iamshinerk @davidfrawleyved 7/n Bt I'm convinced Jyotirlingas r sources of high energy. Be it solar,nuclear or spiritual energy! Exact form of energy not known. Did u knw LOTUS, holy flower in #Hinduism, also follows #Fibonacci pattern? Burj Khalifa in UAE hs bn inspired by d shape of flowers as winds...

@DetheEshaSen @Defence_360 @meghdootindia @megirish2001 @CantstopulovinM @sanjeevsanyal @LostTemple7 @ToTheePoint @iamshinerk @davidfrawleyved 8/n as winds cause lesser damage to such shapes. Ostensibly! To every #Hindu, ultimate purpose of life is moksha, which cn b attained only wn u're at peace with urself. Or let's say, when 1 achieves BALANCE of flow of ENERGY within oneself. My blog>> https://t.co/2jT9CDpEuM

@DetheEshaSen @Defence_360 @meghdootindia @megirish2001 @CantstopulovinM @sanjeevsanyal @LostTemple7 @ToTheePoint @iamshinerk @davidfrawleyved n/n Hindus are taught to question everything they r taught. If anyone has a better theory to this, then pls do elucidate it here. I'll b thankful! Thanks to d person who drew the original spiral on the map, and to @simplyatin who brought this map to my attention.

Forgot to add: Fibonacci pattern is wat prevents universe frm collapsing. Most common shape of galaxies is spiral. So its very possible that the shape also helps in EASE OF FLOW of energy.

Posting clarification for tweet 6/n in this thread— IRRADIATION map. In d map dark colours show regions which receive higher solar radiation(SR) n vice versa for lighter colours. So blue arrows drawn show flow of energy frm region which receives higher SR to region with lower SR.

Hd posted video on the same with more details>>> https://t.co/gCe0iHJy2i
