The Lefties are desperately virtue-signaling each other right now about Kanye West.

"So we all agree, right? Kanye's days of being any kind of celebrity or influencer in the black community ended long ago, right? RIGHT?! I MEAN THE DUDE IS CRAZY WE CAN ALL SEE THIS OK?!"

So here's the talking point on MSNBC right now: That somehow a CRAZY MENTALLY DISTURBED BLACK MAN was allowed into the White House and TRUMP EXPLOITED HIS MENTAL ILLNESS.

> Looks like @MSNBC wants to get in on the action framing Kanye West as a crazy person by calling his meeting with President Trump an "assault on our White House" "bonkers" "crazy".
