Here's the great thing: JW is eventually going to get those Benghazi emails. Don't know about getting Clinton & Co. to testify under oath, but all JW really needs is those emails.

BREAKING: A federal court ordered a hearing for tomorrow (October 12th) on JW's 2019s request for testimony under oath from Hillary Clinton, Cheryl Mills, & other State Department officials about Clinton email searches in JW's 2019s FOIA lawsuit about Benghazi. (1/6)<https://t.co/lj0MLUQyM4>

The emails from Clinton's server on Benghazi are going to show:

- 1) they knew it was a AQ terrorist attack from the start
- 2) they decided to leave those people in Benghazi hanging out there on their own.

Since plenty of 'missing' Hillary Clinton emails have turned up [remember the 700,000 Clinton emails on the Weiner laptop? I do! *gigglesnort!*] you can bet they are covered in JW's FOIA lawsuit.

Reminder: Comey managed to BULLSHIT everybody that 'all' the emails had been reviewed using this cool new technique to sort through 700,000 emails in just a few days. Then this came out:

The fact that Comey claimed his crack FBI team - with Peter Sztrok on it! managed to review 700,000 emails in a marathan 12 hour span was clearly bullshit.

And now it's been proven to be bullshit.

Remember how this went down. Hillary got caught using an illegal homebrew server that wasn't encrypted for official St. Dept. business & classified info was found on that unprotected server.

She was investigated by the FBI for this.

Comey & His Merry Crew managed to FINESSE that investigation, let Hillary walk away scott free so she could keep running for President....

AND THEN @RudyGiuliani & THE FREAKING NYPD DROPPED THE WEINER LAPTOP ON THEM.

Oh that's just GREAT! They thought this was over, NOW WHAT THE F**K WERE THEY SUPPOSED TO DO?! THEY'RE IN SOME PRETTY DEEP SH*T NOW, MAAAN!"

Oh sorry everybody. Had a Hudson moment there....

OK so Comey & Co. put their heads together. "How do we make this go away?"

So @Comey decided, "Hey I'll just go out there and tell everybody we checked all 700,000 emails in 12 hours using this cool new technology." So that's what he did.

Once again, the 'missing' Hillary Clinton email issue went away.

For awhile.

THEN DONALD TRUMP WON THE ELECTION.

The FBI is now under new management.

So the Weiner laptop and those 700,000 Hillary Clinton emails on it are now in the hands of somebody who DOESN'T have a vested interest in hiding them.

Now, understand this: Trump & Co. have known what's on that Weiner laptop since LAST YEAR. They *know* what @Comey & @HillaryClinton were so desperate to hide on that laptop.

They've held it back.

Biding their time.

Until now.
