Deputy Director McCabe Office of Professional Responsibility Investigation Part 01 of 01.pdf

Andrew McCabe was reported to the FBI's Office of Public Affairs for making an unauthorized leak of classified info to the media about [@GenFlynn](#) in early February 2017.

If you've wondered exactly who it was who leaked the classified info from that intelligence report on [@GenFlynn](#)'s phone calls with then-Russian ambassador Kislyak to the media, you are right now seeing a huge honking clue who it was.

To those responding to this info by sneering "Nothing's gonna happen":

Up.

Your.

Game.

You just might be too stupid to be following me.

The then-Deputy Director of the FBI get's caught targeting @GenFlynn with an illegal leak so he can 'investigated' by Peter Strzok?

Now that we know it was McCabe who set up Flynn for a fake 'perjury' investigation by his pet attack dog, Peter Strzok, the next name that's going to surface is...Joseph Pientka.

The strategic leakers who were targeting people for bogus FBI 'investigations' are all about to be exposed. Groundwork revealing the strategic leaks against Flynn, Page & Papadopoulos has all been done over the previous months.

We're at the stage we SEE who the leakers were.

And this gets released right as the prosecutors of James Wolfe reveal they've made a sweetheart deal with him to reduce his 3 counts to just 1 count of perjury.

He sang like a canary.

ROGUE POLITICAL OPERATIVES WITH SECURITY CLEARANCES WILL NO LONGER BE ALLOWED TO INFLUENCE GOVERNMENT POLICY THROUGH STRATEGIC LEAKING OF CLASSIFIED INFORMATION

JAMES A. WOLFE

Wolfe won't be lonely for long. More of his fellow leakers are going to be rolled up soon.
