We all know that Kareena Kapoor is expecting a second child.

We know that Anushka Sharma is expecting her first child and her husband, India Cricket Team Captain Virat Kohli has come back from Australia to be with her.

We also know which actor wears which designer clothes.

But do we care to know who was Cadet Amit Raj?

We don’t.

I don't completely blame you for this.
We all waste our news appetite on junk news which never adds any value to our society.
On 3rd of Dec, Cadet Amit Raj of Sainik School Purulia, was at his hometown Nalanda in Bihar.

While jogging around 6 am he heard people shouting in the neighborhood. He stepped out to see that a neighboring house was on fire. Without thinking twice he entered the house to save 3 children who were trapped inside. He sustained 85% burns by the time he saved the first two

children but still decided to save the third one. He was in no condition to save the third child but still entered the house to save the third in lieu if receiving 95% burns himself. To his heroics, all three children were saved. He was admitted to a nearby hospital & was later

Shifted to Safadarjang Hospital, Delhi. The braveheart lost his life on 13 Dec 2020. Not even single media house covered this story.
Let us honour this brave soul by using the power of SM. Coz only this will help us imbibe the values of sacrifice that can build a #New_India.
