Did you know one of the biggest US military base overseas is #CampBondsteel in #Kosovo, SRB?

https://t.co/q1osg89aw8

In spite of this fact, Kosovo is a "state" with the highest rates of #childtrafficking, #humantrafficking, #armtrafficking, #drugtrafficking, #corruption etc.

Saying that Serbia had anything bad to do with the Bosnian war, Croatian war or Kosovo war (except the help of Serbian people to Bosnian, Croatian and Kosovo Serbs) is sick perception of reality and a propaganda that #FakeNews media served to the ■

#MPRI has been involved in the #Balkans for years. In 1996, after the #EthnicCleansing in #Krajina, MPRI received a $400 million State Department contract to "train and equip" the Bosnian Croat-Muslim Federation Army.

https://t.co/2yKbrmTZ8W

#BillClinton and the #Pentagon were keen to be seen as creditworthy and repaid in the form of an Iran-Contra style operation - in flagrant violation of the #UN security council arms embargo against all combatants in the former #Yugoslavia.

https://t.co/mtRdCd8ki6

#NATObombing of #Serbia and #Montenegro for 78 days didn't only killed thousands of people,
but also left #DepletedUranium throughout all of #Serbia.

Many soldiers as well as the Serbian and Albanian people died shortly after from cancer caused by DU.

Some months before the US-led bombing of Serbian targets, one of the heaviest bombings since WW2, a senior US intelligence official in private conversation told Croatian senior army officers in Zagreb about Washington’s strategy for former #Yugoslavia.

https://t.co/TbirirIpaE

According to these reports, communicated privately to this author, the #Pentagon goal already in late 1998 was to take control of #Kosovo in order to secure a #Militarybase to control the entire southeast European region down to the Middle East oil lands.

The #KLA terrorists began action in 1996 with the bombing of refugee camps housing #Serbianrefugees from the wars in Bosnia and Croatia.

The KLA was supported from the outset by the #CIA and the #GermanBND. During the 1999 war at Kosovo the KLA was directly supported by #NATO.

The #KLA helped finance its operations - by removing and selling body organs from kidnapped #Serbs and Kosovan Albanian civilian prisoners.

The practice recalls the barbaric human experiments carried out by the Nazi #JosefMengele in the #Auschwitz concentration camp.

The adoption of the #KLA as an ally was vital to Washington's strategy of breaking up the #YugoslavRepublic into its constituent parts, ensuring its own hegemony within the #Balkanregion and threatening the broader geo-strategic interests of Russia.

https://t.co/3zDwDO4Rsw

Washington was shifting its policy from proscribing the KLA as a terrorist organisation to one of covert support. During the 1999 Rambouillet negotiations, #MadeleineAlbright promoted Thaci (head of KLA) as the legitimate representative and the head of the #Kosovo delegation.

The escalating #US presence at #CampBondsteel was accompanied by increased activity by the #KosovoLiberationArmy (KLA). Since its appearance most Serbs, Roma and Albanians opposed to the KLA have been murdered or driven out.

Since the establishment of the UN Mission in Kosovo #UNMIK in 1999, according to some international organizations Kosovo became a major destination country for women and young girls trafficked into forced #prostitution, in part as a result of the presence of peacekeeping forces.

The literature on #BosniaandHercegovina and #Kosovo reports that there is a minority of girls under 18 in the brothels. #Sextrafficking

https://t.co/S12Ula6iGj

The two protectorates have provided a major impetus in the growth of #sextrafficking and also serve as a general transit route to #WesternEurope. Poor law enforcement, corruption and porous borders offer favourable conditions.

https://t.co/TgLz9KUkdY

The KLA’s crimes only came to light at all because of the unravelling of an ongoing cover-up by the US, the United Nations and other major powers.

These crimes didn’t start in Kosovo but in all the territories of the Yugoslavia where NATO intervened in armed conflict vs. Serbs.

TWO MILLION DOLLARS FROM ONE BODY!

That’s the reason the #Organharvesters follow the world’s war spots - they generate enormous revenues. This gruesome fact unveils the most horrendous, yet hidden crimes in the former #Yugoslavia - a crime committees against the Serbian people!

It was #CampBondsteel, not Medicus hospital. In this sense, the right place to explore the crimes of #humanorgantrafficking of kidnapped #Serbs in #KosovoandMetohija is the U.S. military base, Camp Bondsteel, not “Medicus“.

https://t.co/KlcoWBov0T

Revelations of fascistic crimes carried out by the #KosovoLiberationArmy (KLA) prior to, during and after NATO’s war against the former #Yugoslavia should provide a salutary lesson whenever #Washington again cites humanitarian concerns to justify its predatory war aims.

#USDemocrats and #Deepstte engaged in destroying #Yugoslavia and $Serbs as its carriers, took away #Kosovo and pushed for its independence which was a main agenda of KLA terrorist organization too, covered up all crimes against humanity and jumped in once country was disfunctinal

They ripped off Serbian sovereign territory #Kosovo which is known worldwide as Serbian "holy land". By doing that, #USDemocrats, #UN and #EU violated international law, constitutional law of #Serbia and stabbed their dirty flag - #CampBondsteel, "ending" the war.

Under UN 1244 #Kosovo should remain part of #Serbia pending a peaceful resolution of its status. UN 1244 resolution was blatantly ignored by the #US, #German and other #EU parties in 2008.

By declaring its independence, #Washington gains a weak state which it can fully control.

When Kosovo proclaimed its "independence" in 2008, the Western media hailed the provocative dismemberment of Serbia, a move that completed the destruction of #Yugoslavia by the #UN, the #EU and #NATO, as an exemplary means to bring "peace and stability" to the region.

Since unilaterally declaring independence in February 2008, the failed "state" run by heroin traffickers and white slavers, host to the vast U.S. #CampBondsteel, has been recognized by only 72 out of 192 U.N. members, including 22 of the EU's 27 members.

https://t.co/TLZqOLhpoP

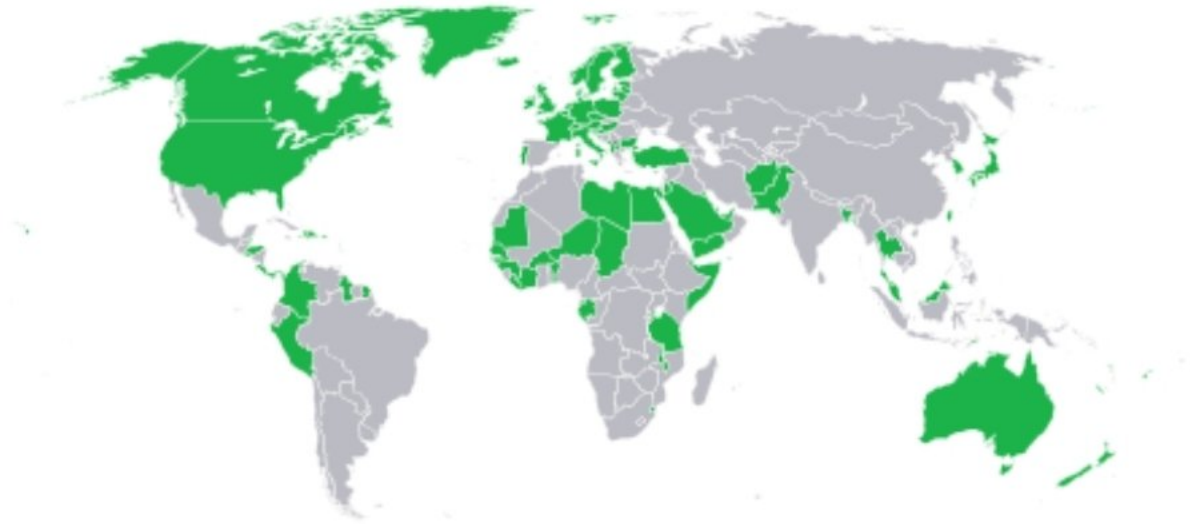

In one of the more bizarre foreign policy announcements of a bizarre #ObamaGate Administration, US Secretary of State #HillaryClinton has announced that Washington will “help” #Kosovo to join #NATO as well as the #EU

https://t.co/wznpbt4AEb

In fact, 5 billion people don't recognize the drug state #Kosovo.

But in order to claim its the independence, #Albanianhistory was well fabricated and falsified by the West and Germans, showing that #Albanians were minority on Kosovo in midieval times.

https://t.co/1lmvcR6CAX

The question then becomes, why are #Washington, #NATO, the #EU and inclusive and importantly, the #GermanGovernment, so eager to legitimize the breakaway #Kosovo?

A Kosovo run internally by organized criminal networks is easy for #NATO to control.

According to high level sources among the Private Millitary Contractor (PMC) community, the #Pentagon runs a narcotic empire around the world, centered at #CampBondsteel in #Kosovo.

https://t.co/SKq4wB2NHU

The major share of Afghan heroin (over 70%) is smuggled to #Europe through #Kosovo, or, more exactly, through mafia-type criminal groups composed of Kosovo #Albanians.

https://t.co/neQpHM7oN3

The first country to recognize the independence of #Kosovo was... Guess who??? #Afghanistan

Obviously, donkeys loaded with packs of heroin had waited too long, so it was high time to unload the poor animals.

The 1999 #NATObombing campaign led to the establishment of the independent sectarian #Islamiststate of Kosovo which has since made repeated efforts to ethnically cleanse the last #Serbs from the ancient heartland of their own nation. #KosovoisSerbia

https://t.co/PSfAym1j1c

In Kosovo - essentially a nasty narco-Mafioso scam posing as a state and housing #CampBondsteel - Hashim Thaci, the president and former head of #KosovoLiberationArmy (KLA) is “building an army for #Kosovo.

https://t.co/R8mT2H9NEO

#Kosovo also houses at least five #ISIS training camps, one of them just a few miles from #CampBondsteel.

In these camps, ethnic Albanian and other #Islamistterrorists are trained by former #KLA fighters, the so-called ‘heroes’ of the war on #ChristianOrthodox #Serbia.

After building a useless base #CampBondsteel to demonstrate what colonization is during the modern era, they allowed #Albanianterrorists to pillage Serbian homes and property, burn down Serbian #ChristianOrthodox monasteries and churches on #Kosovo

https://t.co/4PuvcRL1Ne

#Europe and the world avoided a broader war 21 years ago...

But #NATO, using the #Balkans as its global springboard, may yet succeed in triggering a conflict that will not be contained and will not remain within the realm of conventional warfare.
