1) Voting in Cuyahoga County (OH's Manhattan for its blueishness) has dramatically increased.

2) Bad news right?

3) Er, no. "And increases are coming from Republicans and unaffiliated voters."

4) Now, we have to watch unaffiliated voters, but my OH guys--"The Accountant" and "Ohio Wan" developed a statistical model in 2016 that appears to be holding for assessing how Us will vote.

5) It's not bad for us at all.

6) So, here are the raw numbers:

Eighteen days out in 2018:
D 68,760 (44 %)
R 39,080 (25%)
Us 48,206 (30 %)
Total 156,251

2014:
D 75,675 (55 %)
Rs 33,964 (25 %)
•Us 26,854 (19 5)
Total 137,053
