THREAD: Guantanamo Bay aka #GITMO

1) Still think nothing is happening? Take a look at this. Guantanamo Bay, under trump has been expanding. Big things are happening on this front.

2) President Trump has 200 million ready for upgrades & has requested another $500 million for #GITMO. Upgrades to include 16k capacity, hospital upgrades, expanding the courthouse & padded cells.

3) Anyone who knows DJT knows 500 million in his hands goes a long way. As you remember he was told the Jerusalem embassy would cost $1B and he was able to accomplish it for $400k.

4) With new construction of buildings, it allows for many more prisoners to be housed in this facility. Remember those 55k+ sealed indictments?

5) Many members of the deep state are quite old? How could they house these prisoners you might ask? Take a look at this link.

6) But with all these indictments how can the courts handle the influx of treasonous criminals? Remember the Executive order that takes effect Jan 1st 2019.

7) With this EO we can guarantee these deep state operative's sixth amendment rights with an expedient trial through military tribunals.

8) Moves are currently being made to ensure the right people for the job are put in place.

9) Sec of Defense General Mattis appointed a new chief judge to Guantanamo's war court. Army Col. Douglas K. Watkins who has 37 years w/ the US army.

He has served as an MP, as well as army police investigator. He received a law degree from Texas tech.

10) He has stated that he does not plan to retire for at least 2 years. How many years left in President DJT's 1st term again before his second term starts?

:)

11) Remember, there is always things happening in the background. You just need to keep digging for the truth. The wheels of justice move slow but grind exceedingly fine.

11) The plan is in motion, it is certainly going slower than we all want, but there are so many things taking place behind the scenes that none of us could even comprehend. Stay the course, stay positive and justice will be served soon.

12) Just to be clear before anyone posts this pic these renovations were actually done during the Obummer administration. He did one thing right, built himself some more space for his stay at GITMO..coming soon to a theater near you.

13) Yes, I know shocking isn't it that Obummer did a $500 million dollar renovation to a facility that he threatened to shut down...too bad for him that he didn't. Such a shame.

14) Keep the faith, the PAIN IS COMING.

15) The most important thing we MUST DO is get out and VOTE RED

#PresidentTrump & his administration cannot accomplish anything they need to accomplish without a #RedTsunami

16) Stand Strong Fellow Patriots!
