In the fog (__ ___) it is difficult to see clearly. Even after investigation, much will be kept from the public. Eye witnesses indicate a sequence that others immediately dismiss. Such is to be expected in a DIS-information age. We have a "small scale" event, nothing more (yet?).

And while we "look here", what is happening "over there"?

Does Metro Nashville have loudspeakers in the downtown area? (volume up)

Where is the video of the suspect vehicle when it was originally being parked and the suspects who left it there?
(FYI: Epstein didn't kill himself)
