#ASIANPAINT Shared monthly chart for reference ■
~ Gave sell call near 3300
~ Good to add at below levels
2580 /2200 https://t.co/lRdCEfw7WD

#ASIANPAINTS We all know about this stock but is it really worth to add at CMP?
Reasons are \U0001f447
~Monthly RSI is too high .So we may see breakdown in next few months
~Continuous profit booking at top level.Hence we're near to top in long term chart
Hope it helps u to understand\U0001f60a pic.twitter.com/3ltwZMs3d8
