Interesting Question by Mr. Bharat Shah on the Astral Call

A good answer by the management as well

No reco!

Mr. Bharat Shah of ASK – upgraded chemistry, distribution, plants etc. All key levers were systematically strengthened, can we now say in 5 years, this will be the golden period for Astral for overall business and rate of growth of business?

Rightly asked. We at Astral are over bullish for the next 5 years, effect is coming, unorganized has pain, small players getting affected, all indicators suggesting Astral should do excellent in coming years. Very very choosy on employing our capital, working on multiple tasks, team excited about current situation, good news is on the way in coming time. System based company with best of the best in the company. Manpower is the key to drive the business. Right Manpower and right systems.

Solidity of the growth rate? Next 5 years defining?

Absolutely yes. 2 things are important – Consistency and system driven process rather than human driven company. Many departments are like that and more are being converted.
