On the 19th Sept. 2014 \$BABA opened at 92.70\$ at the NYSE. Today it has 35.8x the revenue and 35.6x the net income.

The stock was lower yesterday at 90.82\$

Sometimes the stock market is widely irrational.

Ofc I don't know for sure but this can be the home run bet for Charlie.

Alibaba Group Holding Limited (BABA)
