#BDL The stock has been holding very well in spite of the crazy sell-off in markets and has been consolidating in a tight range in the last 2 weeks.

- CCI never went into bearish territory
- Relative strength hits new highs

Expecting a strong move next week! https://t.co/rDCnSOFkxs

The consolidation I mentioned in #BDL is in progress and if I want to take fresh/add more to the current positions this is one way to do it - Trendline retest!

One can also wait for a reversal confirmation before adding. https://t.co/qcUntm9NEz pic.twitter.com/5lgT8aZZpB
