## #BigDickAnon Update: The Clownstone Cops Edition.

## https://t.co/GgidNgp2Du

"Greetings from the Jungle. Seems the CIA and the Chinese were the ultimate keystone cops. Each robbing the same bank at about the same time and using the same escape route and ran into each other."

#BigDickAnon

"Team CIA: The CIA efforts were aimed at spurring a military coup and stopping the release of sensitive intelligence information showing there has been an on going effort to overthrow the Trump Administration."

#BigDickAnon

"Two of the folks we interviewed claimed their orders came straight from the top, and John Brennan was behind the scene coordinating events along with Peter Strozk."

#BigDickAnon

"Seems these boys are anxious about their upcoming living quarters with Tyrone and trying to save their asses from him and his friends."

#BigDickAnon

"The President has all he needs and we will see. Interesting enough the propellant canisters used by the Chinese came from the CIA. Have not figured that out yet."

#BigDickAnon

"On a side bar the CIA has polling information showing a Trump landslide and have been actively involved in seeding the public polls with dis-information and this coupled with massive payments to pollsters is creating the image the election is over."

#BigDickAnon

"This way if an election occurs the deep state and elements of the military can claim the election was rigged and point to the polls as proof of Russian actions. Actually not a bad move."

#BigDickAnon

"Team China: The Chinese were more even in their approach and they were trying to infect everyone. They see a war and want to destroy the will of the Country even more before they make their move."

#BigDickAnon

"The Dam is on the menu so do not lose hope. Talking to my Russian friends and they are astounded the Dam has not blown The innards of the Dam are toast and given the actions of the Chinese time is very short."

#BigDickAnon

"My own opinion that in some way God is dragging this out a bit because as he said the Chinese have not suffered enough. He is big into suffering."

#BigDickAnon

"I have enjoyed posting with you folks and am heading off for other things. Once the Dam goes I will get back with the pictures. Wanted to mention look for some very strange atmospheric activity all around the Dam in the next few days. Cheers."

#BigDickAnon

- Poll orgs taking money from the CIA in order to overthrow the government? High treason.
- Brennan and Strzok trying to overthrow the government? High treason.
- The Chinese trying to overthrow the government? An act of war.
- The President has all he needs

#BigDickAnon

- CIA agents must have been captured along with the Chinese if BDA knows their orders came from the top
- Atmospheric phenomena will precede the dam going
- Watch and pray that you do not fall into temptation

Just a thought: keep a VERY close eye on the polling companies to see when they start inflating their numbers for Joe, at least even more than they already have. The payments have probably already been made but they'll wait and co-ordinate for maximum impact.
