@seamless_t

|1| I have seen a lot of tweets emphasizing the partnership between @iotatoken and @renaultgroup. It's a great compliment for IOTAs tech, but everyone who ...

#IOTA #greentech #ElonMusk #Bitcoin

|2| is following IOTA more closely should not be surprised at all.

All the recent partnerships are probably hard to grasp for the outsiders/disappointed, but ...

|3| it is not like the management behavior is something one can not change easily. The IOTA Foundation grew through the defeats it experienced.

IOTA is ...

#Bicoin

|4| no more a realm of promises.

While the media and public judged over IOTA, they put in years of research into #coordicide

While the media and public categorized IOTA as failure (many of them to this very day), they kept fighting for ...

#research #DLT

|5| their vision and continued with their Imagination of "DLT 3.0":

--> removing the need of miners,
--> scalable,
--> feeless,
--> data/value layer,
--> governance model mitigating growing centralization,
--> ...,

#ResearchPaper #DLT #trilemma

|6| When IOTA decided to CHANGE, it were small changes at the beginning; people failed to see a tangible result, and decided to stop following IOTA.
