**I will be a buyer under 13800 levels, but depending upon the reversal on smaller timeframe.**

#BITCOIN

Pending RSI divergence on monthly chart which requires a dip under 13805 to get resolved.

But monthly RSI divergences can go on for years before the resolution.

Best case scenario will be panic dump over next few months. [pic.twitter.com/hi67hMg9sZ](https://pic.twitter.com/hi67hMg9sZ)
