Good morning everyone!! ■
Here is a small thread on a beautiful #allegory based upon the Chinese Bamboo .

An allegory that teaches us #patience,#persistence,#hope,#habits, #Growth & Life in general.

#TheChineseBamboo

The seeds require to be nurtured with love and care for no less than 5 years without showing any results. The first 4 years solely consist of nurturing & tending with NO SIGNS OF GROWTH. But the farmer goes about his job out of habit .+

In the 5 th yr all of a sudden it begins its exponential growth & shoots to over 90ft in just 6 weeks.

Miraculous , ain't it? ■

The farmer tends without knowing the outcome every single day with the same amount of love & concern .He never gives up. He keeps his habit.

Lessons learnt

1) Fundamentals matter. Our survival & success depend on the depth of our roots .

2) One must persevere no matter what. Persistence pays off.

3)Habit or Hope?

I would say both .We need to have faith in ourselves & keep putting in our reps. #Iterations matter +

Let us plant our #dream & do all that is required for it to become a reality whilst we hope and hone our habits.
